Toufic Charafeddine

Frontend Developer

Experienced in frontend development, adept at crafting user-friendly solutions, collaborating with cross-functional teams, and ensuring high code quality for optimal project performance. Known for being a fast learner, consistently acquiring new skills to meet evolving development challenges.

Professional Experience

Frontend Developer

Feb 2023 - Present

Anywr | France

- Integrated design systems (Vuetify and company's) into projects,
- Implemented unit testing for front-end code to enhance resilience and quality while leveraging a SOLID coding foundation for innovation and efficiency.
- Coordinated closely with Backend developers and QA engineers, ensuring seamless API integration and alignment of front-end components with business requirements to guarantee a unified, error-free product.
- Collaborated with UX/UI designers, POs, and PMs using Jira, ensuring seamless communication, meticulous ticket management, and agile sprint planning for timely project delivery.
- Successfully contributed to three interconnected Vue js projects, managing complex dependencies for a cohesive and integrated software ecosystem.

Development Freelancing

June 2022 - Present

- Executed concurrent project management, showcasing proficiency in Express, Node.js, TypeScript, and other languages. Applied full-stack expertise to consistently deliver scalable and efficient solutions across diverse tech stacks.
- Effectively collaborated with fellow developers to streamline project workflows, fostering a cohesive team environment. Played a pivotal role in meeting project timelines through open communication, task coordination, and collective problem-solving.

Project Coordinator

June 2022 - Feb 2023

Delta Energy Group | Lebanon - Khalde

- Designed a Flutter-based application that optimizes technician workflows by transitioning from paper to tablet-based form submissions. The app directly emails submissions to clients, aiding in quotation creation and identifying necessary items for future visits.

EDUCATION

M. Sc. Mechatronics Engineering 2016 - 2022

American University of Science and Technology

VOLUNTEERING ACTIVITIES

Lebanese Scouts Association - Assistant Group Leader

Led a team of 20 adults who in turn managed a group of 200+ members

- Successfully organized six events with 300+ attendees each despite COVID-19 challenges, collaborating with diverse stakeholders and achieving a 20% increase in membership.
