👤 PROFILE

Aspiring Computer Science fresh graduate with a focus on both backend and frontend development. Eager to learn and contribute to web development projects in a dynamic team. Passionate about advancing skills and making meaningful contributions to the field.

🎓 EDUCATION

Bachelor of Science in Computer Science, 80/100   2021 – 2024
Rafik Hariri University   Meshref, Lebanon

🧠 SKILLS

- HTML / CSS
- Java
- Firebase

- Javascript / jQuery
- NodeJs / ExpressJs
- Github

- ReactJs / NextJs
- Sql / mySql
- Microsoft Office

📂 PROJECTS

Library Management System, React/Firebase/APIs
Library Management System—an efficient platform for online book and room reservations. A user-friendly chatbot for personalized book recommendations. Engage in a vibrant community by sharing quotes, thoughts, and interacting with others through posts.

Watch Shop, React / Firebase
Designed and implemented a Watch Shop e-commerce website, providing customers with an immersive experience to explore and purchase a wide range of timepieces.

Wine Shop, React / NodeJS / mysQl
Built a comprehensive Wine Shop e-commerce platform, offering a diverse selection of wines and enhancing the shopping experience for wine enthusiasts.

Inventory Management System, Java / mySql
Efficient inventory management: Add, sell products, calculate income, expenses, profits, and secure data.

Notes App, React / Firebase
Developed a feature-rich Notes App, allowing users to efficiently capture and organize thoughts, ideas, and tasks for improved productivity and organization.

Weather App, React
Created a Weather App for real-time weather updates

Small Meditation App, React
Created a Meditation mobile app featuring guided meditation sessions, relaxation techniques, and mindfulness tools to promote emotional well-being and inner peace.

📜 CERTIFICATES

- Cisco course completion: CCNAl Routing and Switching Introduction to Networks

- JavaScript Algorithms and Data Structures
