WORK EXPERIENCE

Full Stack Developer

Ghoussoub Consulting Group GCG, Beirut, Lebanon

December 2023 - Present

- Integrated backend microservices with Java Spring Boot, creating RESTful APIs that allowed seamless data exchange between frontend and backend, improving system reliability and reducing API response times by 25%.
 - Implemented JWT-based authentication on the backend using Spring Security, which enhanced user session security and reduced unauthorized access attempts.
 - Utilized Angular and TypeScript to enhance the UI by developing responsive, user-friendly dashboards and real-time data visualization tools, which improved user engagement and decision-making efficiency.
 - Implemented intuitive interfaces using Angular for managing devices, user preferences, and notifications.
 - Designed, optimized, and managed MySQL databases to store and retrieve energy data efficiently, ensuring low-latency access to large datasets and improving query performance.
 - Collaborated with the development team using Git for continuous integration and version control, ensuring smooth development workflows and maintaining consistent code quality.
-

EDUCATION

Bachelor's Degree in Computer Science

Lebanese University

September 2022 – July 2025 (Expected)

Lebanese Baccalaureate in General Sciences

Val Père Jacques

July 2022
