

# Khodabocus Ilhaam Noor Al Houdaa

Passionate third-year Software Engineering student, with a keen interest in becoming a future business analyst. Currently, My aspiration stems from the desire to contribute to the enhancement of IT products and services, utilizing data analysis to inform strategic business decisions, and implementing technological solutions to address various business needs within a company. In addition to my current pursuits, I am eager to explore SAP Solutions, recognizing the value it brings to business processes.

### Address

Begue Street, Hollyrood,  
Vacoas,  
Mauritius

## Education

2023

### Diploma in Software Engineering

Universite Des Mascareignes

## Language

English

French

## Experience

### ○ July 2023-Sep 2023

Rogers Capital Management Ltd, Port-Louis, Mauritius

### Business Analyst Intern

During my internship as a Business Analyst, I had the opportunity to actively contribute to the success of Rogers Capital by working on some internal projects.

I collaborated closely with cross-functional teams, developers, and project managers, to analyze business requirements and drive data-driven decision-making.

I actively contributed to the project by meticulously crafting comprehensive UI/UX documentation, ensuring a seamless and intuitive user experience.
