EDUCATION

Mater 1 in Computer Science, Lebanese University   Jan 2023-Sep 2023

Bachelor in Computer Science, Lebanese University   Oct 2019-Dec 2022

EXPERIENCE

OSD Services   Oct 2022-Oct 2023

Collaborated with a team on a new quality control management tool, employing Agile methodology for efficient development. Contributed to the full stack development process, ensuring the successful creation of the product from scratch.

Full stack training: Aug 2021-Oct 2022

Engaged in a year-long full stack training program, acquiring proficiency in HTML, Node.js, Angular, .NET C#, MSSQL Gained hands-on experience in various technologies, laying the foundation for a well-rounded understanding of full-stack development.

PROJECTS

KQC:

- Developed a comprehensive quality and project management tool from scratch using Angular for the frontend and .NET with MSSQL for the backend.
- Successfully integrated Elasticsearch and Google Cloud components into the project.
- Took an active role in database design, creating tables, and writing stored procedures to fulfill project requirements.
- All tasks were meticulously unit tested, ensuring the reliability and performance of both the frontend and backend.

Restaurant web app:

- Implemented a simple Node.js web API to retrieve and update restaurant menu information from an Excel sheet.
- Utilized a Bootstrap template for the UI to enhance user experience.

Transactions app:

- Developed a robust API for opening new "current accounts" for existing customers, paired with a user-friendly UI.
- Demonstrated flexibility by successfully unit testing both frontend and backend components.

TECHNICAL SKILLS

Programming Languages and tools

Excellent	HTML, C#, Javascript, Typescript, Angular, Nodejs, git.
Intermediate	MSSQL, Java.
Beginner	Oracle, C, python, android, php, docker, elastic search, google cloud, signalR, kubernetes

Agile methodology:

- Collaborated in agile team contributing to successful product delivery.
- Participated in sprint ceremonies, daily scrum meeting, retrospective, planning
- Adapted to changing project requirements embracing agile principles
- Fostered a positive team culture by sharing knowledge and supporting colleagues.

SOFT SKILLS

Problem solving, communication skills,great teamplayer.

LANGUAGES

Arabic (Native), French(Intermediate), English(Proficient).
