@osama.kanan

Majdal Aanjar, Bekaa - Lebanon

### SKILLS

Python Programming

Machine Learning Algorithms

Web technologies (Javascript, HTML, CSS)

React.js

Java Programming

Problem Solving

Technial Support

Microsoft Office

### EDUCATION

#### 1 Bachelor of Science in Computer Engineering

Lebanese International University  
2019-2023

#### 2 Master's of Science in Computer and Communication Engineering

Lebanese International University  
2023-2025  
(Currently pursuing)

### LANGUAGES

English

Arabic

### PROFILE

Enthusiastic computer engineering graduate with diverse programming skills, standout as a technical coordinator streamlining processes. Experienced in AI and web project development.

I Have the passion to work for long hours behind my computer and get my hands dirty designing and developing software solutions to any discipline.

Currently expanding my knowledge in machine learning and deep learning. Ready to enhance technical teams.

### WORK EXPERIENCE

#### Technical Coordinator

Syrian Higher Hajj Committee | Beirut, Lebanon

February 2023 - July 2023

- I handled various technical responsibilities, including:
  - Data analysis and processing using Microsoft Excel.
  - Electronic pilgrims registration.
  - Designing diverse cards.
  - Providing technical support.
  - Data managing.
  - generating reports using Microsoft Word, and more.

### Projects

E-commerce Web App

October 2022 - January 2023

- Developed an e-commerce website for selling electronic products online using various cutting edge web technologies like:
  - Next.js and React.js for developing the frontend side of the website.
  - Node.js as the runtime environment.
  - Express.js to develop the backend side; and MongoDB as the database.
  - Tailwind CSS.
- The website has the ability to easily manage products using Sanity CMS, and any sold product is registered in the database and shown to the website owner.
- In addition, Stripe is integrated into the app to allow the user pay for the products when purchasing.

### Certificates

- Certificate in A+ and Computer Maintenance - MAPS
- Certificate in Python Data Structures - University of Michigan (Coursera)
- Two Certificates in Developing and Improving Deep Neural Networks - deeplearning.ai (Coursera).
