

# Yahya Kanaan

I am a dedicated and results-oriented Sergeant Chef with eight years of experience in the army under the Ministry of Defence - Department of Military Promotions. Throughout my career, I have been responsible for overseeing and managing the promotions of military personnel. My primary expertise lies in utilizing SQL to develop and maintain comprehensive databases for tracking and managing promotions efficiently. Apart from my work, I possess practical experience in web and app development, further enhancing my technical skill set.

## WORK EXPERIENCE

### Sergeant Chef Ministry of Defence, Department of Military Promotions

2015 - Present

Beirut, Lebanon

#### Tasks

As a Sergeant Chef in the Department of Military Promotions, I have held a crucial role in managing the promotions of military personnel. I have been responsible for designing, implementing, and maintaining an efficient database system using SQL to keep track of all promotions and related data. My work has involved collaborating with team members to ensure the accurate and timely processing of promotions, as well as generating reports for higher authorities. Additionally, I have provided technical support to the department to enhance the overall efficiency of the promotions process.
