📍 Beirut, Lebanon

## SUMMARY

Recent and aspiring graduate, highly motivated to learn and gain valuable experience in the work field, as I eagerly apply my newly acquired knowledge and skills to drive significant advancement in the computer science industry.

## EDUCATION

### Bachelor of Computer Science

Lebanese University - Hadat Campus

📅 11/2019 - 07/2023

- Successfully finished an extensive selection of courses, including Network Administration and Security, Software Engineering, Database Management Systems, Object-Oriented Programming, Server-Side Web Development, and Data Structures and Algorithms.

## PROJECTS

### MealDrop - Food E-Commerce App

Designed, in collaboration with a partner, a food e-commerce app for restaurants, providing users with a convenient platform to place orders and explore restaurant options. Additionally, prepared a comprehensive Software Requirements Specification report.

### MealDrop Web App

Designed and implemented, in collaboration with a partner, a multi vendor food-ordering app that includes admin, restaurant, and delivery dashboards using **Laravel**, **PHP**, and **MYSQL**. Employed **GitHub** for code merging and version control.

### Hospital Database Project

Collaborated with a team to design an application for a hospital institute to manage the system records and information of patients, nurses, secretaries, and doctors, using **Microsoft SQL Server Management Studio** for efficient database management.

### Head Over Meals - Recipe Management App

Collaborated in a team to create a recipe management system application, utilizing **JavaFX** and **FXML** for front-end design, **Java** and **SQL** for back-end functionality, and incorporating various design patterns.

## TECHNICAL SKILLS
