<https://www.linkedin.com/in/dk014/>

I am a motivated computer scientist, specializing in web development with a focus on JavaScript, React, and Next.js. I am passionate about creating user-friendly web applications and have gained hands-on experience through projects and coursework. Eager to contribute my skills to innovative projects and continuously learn in this dynamic field.

EDUCATION

Bachelor of Computer Science

Phoenicia University

10/2021 - Present Lebanon

PROJECTS

Warehouse Database

02/2023 - 02/2025

Designed and implemented a warehouse database system using MySQL

Radiant Skin

10/2023 - 01/2024

E-Commerce Website for Skincare Products

- I constructed a user-friendly interface with easy navigation
- Implemented a management panel for simplified administration
- Constructed the website using MERN stack

Stock Market Prediction

10/2023 - 01/2024

Analyzed McDonald's stock prices using Python to predict future market trends

Plagiarism Checker

10/2023 - 01/2024

I developed an NLP-based plagiarism detection system that analyzes text to identify similarities and potential instances of plagiarism

Note Website

04/2024 - 04/2024

I developed a user-friendly note-taking website using React and Redux
