## KEY POINTS

### Technical Skills:

- Installed and upgraded circuit breaker panels, including EIB systems, to enhance the efficiency and reliability of electrical infrastructure.
- Proficient in the installation and replacement of light fixtures to ensure adequate illumination.
- Demonstrated expertise in interpreting technical schematics and manuals to effectively execute electrical tasks.
- Skilled in running conduit and wiring, contributing to the establishment of robust electrical systems across project locations.
- Installed fire alarm systems and security cameras, prioritizing safety and security measures.
- Conducted troubleshooting using various tools such as multimeters and insulation testers to promptly address electrical issues and minimize operational downtime.
- Proficient in the installation of solar panels, contributing to sustainability efforts and reducing energy costs across project sites.

### Languages:

- Arabic (Native)
- English (Beginner)
- French (Beginner)

## EDUCATION

**Dekweneh Technical Institute**

*BT in Electricity*

**Dekweneh, Lebanon**

*2009*
