PROFILE

Senior in ICT with a demonstrated passion for web programming, software development, and penetration testing. My extensive experience in the field of Information and Communication Technology has equipped me with a deep understanding of cutting-edge technologies and security measures. I am dedicated to mastering these domains to create innovative solutions and enhance digital resilience. With a meticulous approach and a strong analytical mindset, I am committed to contributing to the dynamic world of information technology, ensuring the security of digital assets, and delivering robust software solutions.

HOBBIES

- Biking
- Video game
- Ping-pong
- Learning new technologies
- Diving
- Hunting

EDUCATION

American University of Science and Technology

October 2020 - 2024

Bachelor in ICT Cyber Security till Present

Graduate in spring 2024.

GPA: 3.8 (89 out of 106 credits completed)

Notre dame de la Delivrande

Graduated July 2020
