WORK HISTORY

– Le Flocon Artisant Glacier in Beirut, Lebanon
 [August 2021 – 2024]

- **Responsibilities:**
- Provided exceptional customer service by assisting customers with menu selections, explaining flavors, and offering recommendations.
- Prepared and served a variety of ice cream products, ensuring high-quality presentation and adherence to hygiene standards.
- Managed cash transactions and operated the point-of-sale (POS) system with accuracy.
- Maintained cleanliness and organization of the serving area, including restocking supplies and cleaning equipment.
- Collaborated with team members to ensure smooth day-to-day operations and a positive customer experience.
- Participated in periodic inventory checks and restocking of merchandise.
- **Key Achievements:**
- Recognized for consistently achieving high customer satisfaction scores through positive interactions and efficient service.
- Actively contributed to the development of seasonal promotional campaigns, leading to increased sales during peak periods.
- Successfully handled challenging customer situations with professionalism and courtesy, resulting in positive feedback.

CAREER OBJECTIVE

 Dynamic and driven third-year Computer Science student with a passion for innovative technology solutions and a strong foundation in programming languages, algorithms, and data structures. Seeking to leverage my academic knowledge and practical skills to contribute effectively as a Developer Intern, where I can continue to learn, grow, and make meaningful contributions to projects that advance technology and solve real-world problems **PROJECTS**

Ice Cream Shop Website

- **Description:** Designed and developed a responsive and visually appealing website for an Ice Cream Shop to enhance its online presence and customer engagement. The website features an intuitive user interface, showcasing the variety of ice cream flavors, special promotions, and contact information.

Communication skills

Fluent in **English**, **French**, and **Arabic** languages

- **Key Contributions:**
- Conducted a comprehensive analysis of customer preferences and business requirements to inform the website's design and functionality.
- Utilized HTML, CSS, and JavaScript to create a dynamic and user-friendly interface that reflects the brand identity of the ice cream shop.
- Integrated an online menu with high-quality images and detailed descriptions of ice cream flavors, allowing customers to explore options before visiting the shop.
- Implemented a contact form to facilitate customer inquiries and feedback, contributing to improved customer communication.
- Ensured the website's responsiveness across various devices for a seamless user experience.
- **Skills Applied:**
- HTML, CSS, JavaScript for front-end development
- UI/UX design principles for an appealing and user-friendly interface
- Collaboration with stakeholders to gather requirements
- Web design best practices for optimizing user experience

Car Dealership Management System (JavaFX)
- **Description:** Developed a comprehensive Car Dealership Management System using JavaFX, providing a user-friendly interface for managing inventory, sales, and customer information. Integrated a relational database to store and retrieve data efficiently, enhancing the overall functionality and responsiveness of the application.
- **Key Contributions:**
- Designed and implemented the front-end using JavaFX, creating an intuitive and visually appealing user interface.
- Integrated a MySQL database to store and manage data related to cars, customers, and sales transactions.
- Implemented features for adding new inventory, processing sales, and generating reports to assist in decision-making.
- Ensured data integrity and security by incorporating proper database design principles and access controls.
- **Skills Applied:**
- JavaFX for GUI development
- MySQL for database management
- UI/UX design principles for a user-friendly interface
- Database design and normalization
- Data modeling and schema implementation
- System integration and testing

- **Outcome:** Successfully delivered a fully functional Car Dealership Management System that streamlined inventory management, improved sales tracking, and enhanced overall operational efficiency.

Hotel Website and Application (UI/UX Design)

- **Description:** Designed a comprehensive user interface and experience for a hotel website and companion mobile application using Figma.
- **Role:** Lead UI/UX Designer
- **Key Contributions:**
- Conducted user research, created personas, and developed user journey maps to understand and address user needs.
- Designed wireframes, high-fidelity mockups, and interactive prototypes for both the website and mobile app.
- Implemented consistent design elements, ensuring seamless navigation and intuitive user interactions.
- **Tools Used:** Figma
- **Outcome:** Successfully delivered a user-friendly and visually engaging hotel website and mobile application, emphasizing usability and aesthetic appeal
