SUMMARY

A computer science graduate is passionate about web development. I am seeking a challenging opportunity to apply my knowledge and further enhance my skills in web development.

EXPERIENCE

Frontend Developer

CodeAlpha

March 2024 - March 2024, Remote

- Developed a personal portfolio website showcasing proficiency in front-end technologies.
- Built a functional expense tracker application, empowering users to manage their finances effectively by integrating local storage, allowing users to track expenses across sessions.
- *Skills:* · HTML · CSS · Responsive Web Design · JavaScript.

Full Stack Developer

Bharat Intern

March 2024 - March 2024, Remote

- Developed and implemented a secure login and registration system.
- Built a user blog website, enabling seamless user management by enabling seamless addition, viewing, and deletion of users.
- Established a scalable back-end using Node.js, allowing for future expansion of user management functionalities.
- *Skills:* · HTML · CSS · Responsive Web Design · JavaScript · Node.js · MongoDB.

PROJECTS

Admin Dashboard

May 2024 - May 2024

- Developed a fully-responsive React dashboard application.
- Implemented a dedicated page featuring a detailed table for viewing user information.
- Built a comprehensive page displaying a comprehensive table of all placed orders, facilitating easy access and tracking.
- Designed a user-friendly inbox chat interface.
- This project showcases my ability to build user-centric React applications with a focus on data management, visualization, and responsive design.

Solar Tracking System

Associated with Lebanese International University · January 2024 - January 2024

- Built an Arduino-based solar tracking system.
- The system utilizes an Arduino microcontroller to adjust the panel position throughout the day.
- Increasing energy capture through improved efficiency by ensuring optimal alignment with the sun.

Clinic Center

Associated with Lebanese International University · December 2023 - January 2024

- Developed a full-featured clinic center website from scratch using HTML, CSS, JavaScript, and PHP.
- Implemented functionalities like user accounts, job search, appointment booking, Q&A forum, doctor dashboard, and admin dashboard.
- Integrated functionalities and overcame syntax hurdles, significantly improving my programming skills and problem-solving abilities.

Flower Shop

Associated with Lebanese International University · May 2023

- Developed a comprehensive flower shop website using HTML, CSS, and JavaScript.
- Implemented responsive design principles using CSS media queries, ensuring an optimal user experience on all devices.
- Implemented functionalities for online ordering and product browsing, facilitating a user-friendly shopping experience.

EDUCATION

Bachelor's degree, Computer Science

Lebanese International University · Beirut, LBN · January 2024 · 3.98 GPA

- Awarded President's Honor List.

CERTIFICATIONS

React – Complete Developer Course with Hands–On Projects

Udemy • 2024

CSS, Bootstrap And JavaScript And Python Stack Course

Udemy • 2023

CCNAv7: Switching, Routing, and Wireless Essentials
