PROFESSIONAL SUMMARY

Highly motivated and self-taught software enthusiast with a strong passion for software development and continuous learning. Eager to apply acquired knowledge and skills to contribute effectively to software engineering projects.

WORK HISTORY

TRAINEE | Redux Center 2023-2024

Zahle

- Completed intensive training program in web development covering fundamental concepts and advanced techniques.
- Acquired comprehensive knowledge of front-end technologies such as HTML, CSS, and JavaScript, including their application in creating interactive and responsive web interfaces.
- Gained proficiency in back-end development using PHP.
- Developed practical skills in database management and SQL queries for storing and retrieving data in web applications.
- Participated in hands-on projects and assignments to apply learned concepts in real-world scenarios, resulting in the creation of functional web applications.
- Demonstrated ability to adapt to new technologies and frameworks through continuous learning and experimentation during the training program.

TRAINEE | SE Factory 2023

Beirut

- Python
- Algorithms (Sorting, Searching, Insert/Delete/Search in Data Structures, Depth-First Search, Breadth-First Search)
