cybersecurity

## Summary

"I am a web developer specializing in front-end development, and I have extensive experience in all stages of the development cycle for dynamic web projects. I am well-versed in a variety of programming languages, including HTML5, PHP, JavaScript, CSS, Tailwind and MySQL. Additionally, I have hands-on experience with technologies like Express.js and Firebase, and I frequently work with the React.js and Vite frameworks.

However, I am currently in the process of transitioning my career to cybersecurity. I take online courses on platforms such as Udemy, YouTube, and Coursera to build my skills and knowledge in this field. My goal is to become proficient in areas such as ethical hacking, network security, and information security."

## Skill

## Cyber Skill

- HTML, CSS, Bootstrap, Tailwind
- Java, JavaScript, TypeScript
- Express-js, Firebase, PHP, MySQL
- Git / GitHub .
- Framework: React, Vite, Nextjs
- Linux commands, Encoding &Decoding
- Network topologies
- Information gathering BurpSuits
- XSS,RCE,CROS,SOP,CSRF,LFI,FU
- SQLINJECTION ,Metasploit
- CTF

## Experience

### Markaz Studio -> Web Developer Location: Lebanon

- Develop website using Vite-JS and tailwinds for front-end and Express-JS for back-end.
- Develop project concepts and maintain optimal workflow.
- Complete detailed programming and development tasks for front end public and internal websites.

### Bootcamp->Web Developer

#### Remotely

- Develop website using React-Nodejs. (this program us founded by USA)

#### Cybersecurity-

Online: <https://ctflearn.com/user/xbarox97>

- an online platform built to help ethical hackers learn, practice, and compete through providing the most beginner-friendly way to get into hacking

## Education

Bachelor of Science: **Computer Science** – 2023 (Lebanese International University)
