WORK EXPERIENCE

Codi_Tech, Lebanon — Full Stack Web Developer Intern

08 / 2023 – 03 / 2024

- Delivered real client projects, following Agile methodology.
- Improved my personal and interpersonal skills, especially after dealing with clients and teammates to deliver the projects on time.
- Designed paper and digital wireframes to lay out content and functionality on a page while taking into account user needs and user journeys.
- Created responsive web-based applications using React.js, HTML, CSS and JS.
- Designed database schemas.
- Acquired much knowledge on different front-end and back-end technologies, such as Node.js and React.js.

Elite Insurance Consultants, Lebanon — Claims Officer

10 / 2020 - 08 / 2022

- Investigated potentially fraudulent claims.
- Monitored progress of the claims.
- Worked closely with loss adjusters and clients and negotiated settlements to ensure the customer is treated fairly.
- Collected accurate information and documents to proceed with claims.

Projects

Industrial E-Commerce Website | *MERN Stack*

- Developed a dynamic industrial e-commerce platform for my final project, showcasing proficiency in Mongoose, React, Pure CSS, Express, Socket.IO, and JWT. Available on my Github.
- Implemented a seamless "Add to Cart" functionality, allowing customers to easily place orders for services and enhancing overall user engagement.

E-Commerce Website | *MERN Stack*

- Designed an e-commerce website using React, Node, Express, and Mongoose, enabling seamless navigation through pages with an integrated online purchasing system . Available on my Github.
- Developed an admin panel with exclusive CRUD functionalities for the admin, utilizing multiple tables, implementing JWT and bcrypt for enhanced security .

Informational Website | *SERN Stack*

- Developed a dynamic and visually appealing website for a pastry shop, using React, Material UI, Node, Express, and Sequelize for seamless functionality. Available on my Github
- Ensured security measures by implementing JWT and OAuth, while enhancing the user experience through the admin panel,
