EXPERIENCE

Innovative Tech, Beirut — Web Developer/Team Leader

July 2022 – Present

Team Leadership

Established and led a team of entry-level professionals, providing comprehensive training on technical standards such as consistent version control (Git) and thorough documentation. Cultivated a culture of enthusiasm and humility, fostering an environment of eager and disciplined learners.

Projects Worked On

Drove end-to-end development of scalable projects, encompassing APIs, workflow applications, and CMS solutions. Integrated notable APIs, including Dynamics365, Google Cloud, and Azure, to enhance project functionalities.

Apps worked On

Led the successful execution of significant projects, including a Ticketing System, Team Workflow Structuring, Room Reservations, and an Attendance Application.

Tech Stack

Utilized a tech stack comprising JavaScript (Node.js/Express.js), SQL/NoSQL databases, Handlebars, React, and ensured seamless deployment and ongoing maintenance. Emphasized diligent documentation and implemented strategic refactoring practices to optimize codebase efficiency.

Innovative Tech, Beirut — Part-time Web Developer

Dec 2021 – July 2022

Constructed client-specific web applications with Express.js, employing Handlebars for server-side rendering. Tailored solutions for each client by integrating different databases, including both SQL and NoSQL options.

Innovative Tech, Beirut — Server & Network Administration

August 2019 – July 2022

Oversaw comprehensive server and network administration responsibilities for multiple clients. Managed all aspects, including planning, setup, and ongoing maintenance.

Solweavers, Hamra — Junior Web Developer

Jan 2018 – Dec 2018

Contributed to the planning and development of full-stack

SKILLS & KNOWLEDGE

Development:

- Javascript
- C#
- NodeJS/ExpressJS
- SQL/NOSQL
- Handlebars
- ReactJS
- Version Control (Git)
- Deployment & Maintenance
- Documentation & Refactoring
- Unity

Leadership:

- Project Management/ Strategic Planning
- Team Collaboration
- Problem Solving
- Documentation
- Training & Assistance

Hardware/Software:

- Server setup & maintenance
- Network setup & maintenance

WHAT CAN I BUILD

- Scalable Applications
- API
- Workflow applications
- Web Systems
- CMS
- Integration Apps with various systems (Dynamics – Notion – External APIs...)
- Video Games

applications and mobile apps designed for public release as independent products. Leveraged ExpressJS for backend development and employed React for web frontend and React Native for mobile frontend. Additionally, incorporated MeteorJS into specific projects for enhanced functionality and performance.

EDUCATION

Arts, Sciences and Technology University in Lebanon (AUL), Beirut, Colla— BS in Computer Science

2016 - 2019

Abed Al Hadi Al Debes - Makassed, Beirut, Kaskas— BT in Information Technology

SIDE PROJECTS

Express Starter — Starter package for different Express projects

X Minutes in Lebanon — 2D Satirical Comedy/Arcade Game

AWARDS

Standout Senior Project

Game Jams Submitted

Brackeys Game Jam 2022

Global Gam Jam 2024

LANGUAGES

Fluent in both English & Arabic.
