WORK EXPERIENCE

Itech
System / Web Developer

Beirut, Lebanon
2022 - present

- Excellent understanding of frontend technologies, including **React**, **HTML5**, **CSS3**, **JavaScript**, **jQuery**, **Handlebars**, **Handlebars helpers**.
- Experience building user interfaces for websites and/or web applications.
- Ability to convert comprehensive layouts and wireframes into working HTML pages.
- Knowledge of how to interact with RESTful APIs and formats (**JSON, XML**).
- In depth understanding of code versioning tools such as **Git**.
- Strong understanding of **Node JS** and **Express JS** back-end development.
- Proficient in using frontend development tools and libraries such as **Bootstrap**, **React**, and **Flutter**.
- Skillfully employing **Node JS** frameworks and libraries such as **Electron JS** and **Discord JS**.
- Strategically reverse engineering systems and websites to rebuild more robust versions while using the latest technologies in development.
- Prioritizing Modularity of features to ensure easier and scalable feature updates & bug fixes.
- Building CMS-like systems with more client-inclined features.
- Wide knowledge and understanding of database structure and design and how to maintain it.
- Experienced in building scalable databases using both **NoSQL** (MongoDB, Firebase) and **SQL** (MySQL, MSSQL) approaches.
- Adequately working with emulators, such as **Android** (Andriod Studio) and **IOS** emulators to create cross-platform designs (**Flutter**, **React-Native**).
- Facilitating the establishment of standards and protocols to enhance team productivity and to create robust applications.
- Proficiency in designing and developing responsive design websites.

Coders   **Beirut, Lebanon**
Development Intern   *2021 - 2021*

- Importing and exporting data from Microsoft Dynamics NAV.
- Support tasks related to Microsoft Dynamics NAV.
- Working directly with both Cloud and On-Premise clients by providing application support for Microsoft Dynamics NAV.
- Wide knowledge and understanding of integrated accounting systems and the ability to diagnose and resolve application errors, which sometimes requires working with other internal and external resources to coordinate additional and escalated support.
- Investigating, documenting, researching, and coordinating with coworkers to determine the root cause of an issue.
- Developing customized reports for clients.
- Understanding of the AL language and backend development of Microsoft Dynamics NAV.

Governance Dynamics   **Beirut, Lebanon**
Assistant Manager   *2019 - 2021*

- Superb experience in Quality Assurance. Entrusted by superiors to ensure that the final product observes the company's quality standards (proposals, website services, documents of legal nature, course materials such as agendas, certifications, etc.)
- Responsible for updating, editing, and adding confidential client information to the company database, which required attentiveness and vigilance.
- Documenting course materials (agendas, course details, client information, etc.).
- Taking charge of the Website Backend Management, which included coding in online services through the backend as well as storing and organizing the database and documenting any requested services.
- Managing the company's Social Media presence while promoting services online by following trends across all platforms.
- Entrusted with handling documents of sensitive nature (NDA, confidential client information, company LOGs, agendas for upcoming courses, and preparing certifications for participants).
- Experienced in researching and creating quality curriculums for our new courses that are taught on a professional level.
- Excellent handling of administrative tasks, which included coordinating with clients and staff to ensure the completion of assignments across the company, as well as working closely with the Training Manager to produce quality courses.

Solweavers   **Beirut, Lebanon**
