PROFILE OVERVIEW

Experienced Project Manager and Team Lead in full-stack development, skilled in a comprehensive range of technologies. Proficient in frontend technologies such as React, Redux, Tailwind CSS, CSS3, Java Script, HTML5 and MUI, and backend technologies including Node.js, Express, Laravel. Extensive experience in managing databases, with expertise in SQL (MySQL) and NoSQL (MongoDB). Specialized in WordPress, covering custom themes/plugins, optimization, and security measures. Well-versed in UI/UX design principles using tools like Figma and Adobe XD. Strong command of server configurations with cPanel and Linux, ensuring smooth deployment using tools like FileZilla and FTP. Familiar with Agile methodologies (Scrum, Kanban) and experienced in version control with Git. Exceptional problem-solving skills, a keen eye for detail, and a commitment to delivering high-quality web applications.

EXPERIENCE

In2Info - Full Stack Web Developer, UI/UX Designer, Team Lead, Project Manager

Mar 2023 - Present | Beirut, Lebanon

- Lead cross-functional teams in frontend and backend development, acting as the main liaison between the team and clients.
- Utilize expertise in PHP, Node.js, Laravel, React, Redux, Tailwind CSS, CSS3, HTML5, Java Script, WordPress, and Shopify to decide optimal technology stacks based on project requirements.
- Proficient in SQL databases (e.g., MySQL) and NoSQL databases (e.g. MongoDB).
- Efficiently deploy websites using cPanel and FileZilla via FTP, and administer server configurations for smooth operations.
- Develop and maintain responsive web applications for optimal performance across various devices, with a focus on UI/UX design principles.
- Work on UI/UX designs using Figma, ensuring optimal user experiences and seamless integration with development workflows.
- Participate in code reviews and provide constructive feedback to enhance code quality and maintainability.
- Worked on the Upclick project, applying Agile methodology for efficient and collaborative development.
- Effectively communicate with clients to understand and address project requirements.
- Make informed decisions on technology and stack selection based on project goals.
- Lead deployment and debugging efforts to ensure optimal website performance.

Codi - Full Stack Web Developer

Nov 2022 - Jun 2023 | Beirut, Lebanon

- Experienced in developing server-side applications using Node.js/Express and Laravel frameworks.
- Proficient in working with relational databases using SQL (MySQL, SQLite) and NoSQL databases like MongoDB.
- Skilled in writing modular and maintainable JavaScript code using ES6 syntax.
- Proficient in React, including integrating with server-side rendering, and RESTful APIs.
- Experienced in managing the LAMP stack (Linux, Apache, MySQL, and PHP) for web applications.
- Proficient in using the Linux operating system to install and configure web servers and automate server administration tasks.
- Experienced in AGILE methodology, including Scrum and Kanban frameworks, and using techniques like user stories, backlog grooming, sprint planning, and retrospectives.
- Expert in WordPress, including developing custom themes/plugins, optimizing website performance and security, and integrating with third-party services and data sources through APIs.

Freelance Experience

- [Taxi Terrebonne - Taxi Reservation & Communication Systems](#)

Sep 2023 - Oct 2023 | Terrebonne, Quebec, Canada · (Remote)

- **Frontend Expertise:**

Leveraging React, Redux, Tailwind CSS, and Google API, I've crafted an intuitive frontend that enables users to seamlessly reserve taxis, communicate with our client companies, and receive real-time updates.

- **Backend Brilliance:**

I've harnessed the power of Node.js, Express.js, MongoDB, Socket.io, and Nodemailer to ensure robustness and scalability. Real-time communication and automated reservation confirmations have greatly enhanced our system's capabilities.

- **Security and Data Integrity:**

Data security is at the heart of My solution. I've instituted stringent security measures to protect sensitive information, guaranteeing a secure user experience.

- **Admin Panel Empowerment:**

My advanced admin panel is a testament to our commitment to user-friendly content management, reservation tracking, and real-time notifications, fostering operational efficiency.

- **Enhanced Customer Experience:**

My dedication to customer satisfaction is reflected in the detailed reservation emails users receive. This feature elevates the overall user experience, ensuring clarity and convenience.

This role underscores my unwavering dedication to delivering high-quality web applications, where functionality, security, and user-friendliness converge seamlessly.

PROJECTS

[Portfolio](#) | Vite, Tailwind CSS, three.js, Blender

Explore my portfolio to witness a showcase of dynamic projects, blending technical prowess with creative flair. The portfolio itself is a testament to my commitment to delivering high-quality web applications. Crafted with Vite and Tailwind CSS, it features immersive 3D elements designed with Blender and implemented using three.js.
