EXPERIENCE & TRAINING

SecureALM, Beirut, Lebanon – Full-Stack Web Developer

Aug 2023 - present

Discussing project aims with the development team.

As a skilled Laravel developer, I Design and implement robust backend systems that power our web applications, ensuring stability, security, and high-performance functionality.

I leverage Vue.js to create dynamic and user-friendly interfaces, providing a seamless and engaging user experience for our web applications.

I proficiently use aMember to manage and streamline membership operations, ensuring a seamless and efficient user experience.

I am experienced in utilizing Paddle to facilitate billing and payment processes, guaranteeing secure and hassle-free financial transactions for our services.

With my expertise in WHMCS, I efficiently manage and automate billing and client management tasks, enabling smooth and transparent operations.

Troubleshooting issues in the implementation and debug builds.

Working with app developers on projects.

Testing functionality for users and the backend.

Ensuring that integrations run smoothly.

Recording and reporting on work done.

Maintaining web-based applications.

Presenting work in meetings with management.
