SUMMARY

I am a committed professional driven by a passion for continuous learning and staying updated with the latest industry trends. With a diverse range of skills in web development, including proficiency in Spring Boot, React JS, Material UI, Angular CLI, Angular Material and MSSQL, I bring a unique addition to any team. Always ready to broaden my horizons and embrace new challenges.

I am excited about the opportunity to contribute to an organization's success. My knowledge and skills make me a valuable asset, and I look forward to leveraging them to drive innovation and growth

EDUCATION

Licence in Programming 2020 - 2021
[Baalbeck Technical institute - Baalbeck](#)

TS2 in Management Information System 2015 - 2016
[Sheikh Muhamad Yaqoub Institute - Baalbeck](#)

PROJECTS

Web App for Bank 2024

- Completed a full-stack banking application with Java, Spring Boot, Hibernate, and MSSQL.
- Developed a user-friendly frontend with Angular and Bootstrap.
- Features include transaction management, role-based access, API documentation via Swagger, and a statistical dashboard.
- This project showcases my skills in creating secure and efficient applications

Spring Boot and MongoDB Application with Docker 2024
Deployment and OpenAPI Testing

- I built an app using SpringBoot and MongoDB. I used Docker to make easy to setup and run.
- the app can create, read, update, and delete data (CRUD operations).
- I used DBRefs and collections relationships in MongoDB, which is like linking related information together.
- I tested the app using Swagger-UI.
- I employed both queries and MongoTemplate for efficient data search and organization, and also utilized query method services, thereby implementing two distinct methods for data retrieval

Web App for Portfolio 2023

- Developed a dynamic web portfolio using ReactJs to showcase my profile and skills as a web developer.
- The portfolio provides an interactive platform for potential employers and clients to explore my work and understand my capabilities.
- The portfolio is designed to offer a comprehensive and engaging overview of my journey as a web developer.

Web App for Agenda Academy 2023

- Developed a web application for the Agenda Academy education institute using HTML, CSS, JavaScript and PHP.
- It allows an easy educational experience for students from KG1 to Grade 9.
- The application features an integrated agenda module for students and a registration system.
- Additionally, the application includes a dynamic course management system, offering a diverse range of courses across various domains.

SKILLS

Java · Spring Boot · HTML · JPA Hibernate ·
CSS · JavaScript · TypeScript · Angular 17 ·
Angular Material · TypeScript · IntelliJ ·
Bootstrap · ReactJS · Material UI · MSSQL ·
MongoDB · Docker · GitHub ·
Version Control · Responsive Web Design

STRENGTHS

💎 **Problem Solving and Attention to Details**

The ability to analyze and solve complex problems, and to develop and implement effective solutions.

The ability to write clean, well-organized code and to ensure that all elements of a website or application function as intended.

💎 **Communication skills**

The ability to communicate effectively with both technical and non-technical stakeholders, and to explain technical concepts in a clear and concise manner.
