

Summary

Recent graduate with a Bachelor's degree in Computer Engineering, equipped with a solid foundation in software development, hardware design, and network principles. Strong problem-solving abilities, excellent teamwork skills, and a passion for learning and adapting to new technologies.

Skills

Technical skills:

- Programming languages
- Software development
- Web development: HTML, CSS, C++
- Operation systems

Soft skills:

- Problem-solving
- Team work: Collaboration, Communication
- Analytical thinking
- Troubleshooting

Tools & Methodologies:

- Version Control Systems
- Cloud Platforms
- Monitoring & Logging
- Issue Tracking, Documentation, and Security

Experience

University senior project:

Project title: Health Fusion Web Store

Lebanese International University

2023

- Led a team in developing a web-based e-commerce platform, "Health Fusion Web Store," aimed at providing a convenient online marketplace for health and wellness products.
- Designed and implemented the front-end interface using HTML, and CSS, focusing on user-friendly navigation and responsive design principles.
- Utilized backend technologies such as Node.js and Express.js to create a robust server-side application, incorporation features like user authentication, product management, and cart functionality.
- Integrated payment gateways and implemented secure transaction handling to ensure a seamless and secure shopping experience for users.
- Collaborated closely with stakeholders to gather requirements, conduct regular feedback sessions, and iterate on the product design and functionality.
- Successfully delivered to project withing the specific timeframe, meeting all project milestones and objectives set by the university.
