## Projects

### Twitter full-stack clone, <https://github.com/AKort98/Twitter-Clone>

- Developed a full-stack Twitter clone application from scratch using modern web technologies, including React, Express.js, MongoDB, and Node.js.
- Utilized Tailwind CSS to streamline the styling process and create a visually appealing user interface.
- Implemented a responsive and intuitive design system with Tailwind CSS, ensuring consistent styling and layout across different screen sizes and devices.
- Designed and built a RESTful API with Express.js to handle user authentication, data retrieval, and various other CRUD operations.
- Integrated user authentication and authorization functionalities using JSON Web Tokens (JWT) and bcryptjs to ensure secure access to the application's features.

### Property Quest, <https://github.com/AKort98/MERN-Practice>

- Developed a full-stack app called Property Quest from scratch using modern web technologies, including React, Express.js, MongoDB, and Node.js
- Integrated advanced search and filtering functionalities to allow users to find properties based on their specific criteria.
- Utilized Express.js, to handle routing and middleware functionalities efficiently.
- Implemented error handling and validation to ensure data integrity and provide meaningful feedback to API consumers.
- Deployed the app to Render.

## EDUCATION

Excepted Graduation June 2024

**M1 in Computer Science**, LEBANESE UNIVERSITY

GPA: 88

SEP 2019 – July 2022

**Bachelor of Science in Communications Engineering**, Lebanese International

University

GPA: 3.65

## SKILLS

- React.JS
- Express.JS
- Postman
- MongoDB
- PostgreSQL
- Vanilla PHP
- Tailwind CSS
- Bootstrap
- HTML
- JavaScript
- CSS

## LANGUAGES

*English*

*C1 (IELTS Band Score: 8)*

*Arabic*

*Full Professional Proficiency*

## INTERESTS

- Sports
- Reading
- Traveling
- Learning
- Music
- Technology
