### SKILLS

### EDUCATION

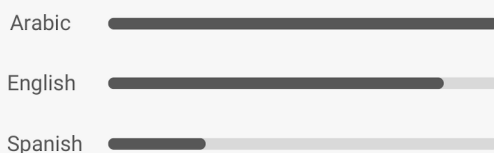

#### Lebanese International University

2021-Present Computer Science  
CGPA: 3.4

#### Haret Hreik Public School

2020-2021 :Baccalaureate in Life with a  
score : 16.5/20

### LANGUAGES

### PROFILE

I am a highly motivated and dedicated Computer Science student in my third and final year, pursuing a Bachelor's degree in Computer Science. With a solid foundation in key programming languages. I am enthusiastic about applying my theoretical knowledge to real-world challenges. My academic journey has equipped me with the skills and mindset needed to thrive in the dynamic field of computer science.

### WORK EXPERIENCE

#### 3 months InternShip at : AUB - IT Department

#### IT - Imaging Team

### Projects

- **Wordle Game using Flutter** : its a game where users attempt to guess a randomly generated 5-letter word within five chances. The game provides color-coded feedback, turning the input box green for correct letters in the right position, yellow for correct letters in the wrong position, and red for incorrect letters. Utilize Flutter for both interface and logic, dynamically updating the display with each user guess. The game concludes with a message displaying the correct word, allowing users to initiate a new game.
- **e-commerce platform using HTML, CSS, and JavaScript** : The website facilitates user-friendly browsing and purchasing of phones, laptops, and TVs. Implement responsive design for compatibility across devices, and enhance the user experience with interactive features
- **online attendance system using PHP** : The system allows users to conveniently mark their attendance online.
- **Booking Shop Management using c#.net**: The App allows the customer to view the books available in the system, with the ability to search for the writer's name or genre
