fady.dib55@gmail.com - [LinkedIn](#) - [GitHub](#)

I approach every new challenge with enthusiasm and curiosity. I collaborate effectively with others. With a commitment to continually expand my skills set and a can-do attitude, I am confident of my ability to make a positive impact in any organization.

Skills

- **Programming (and Scripting) Languages** // JavaScript, Typescript, PHP, Python, SQL
- **Database Management Systems** // MySQL, MongoDB
- **Frameworks and Libraries** // Laravel, Next.js, React, Node.js, Express, jQuery, Bootstrap 5, Electron.js, Angular, and Socket.IO
- **Tools and Cloud Service** // GitHub, Postman, Figma
- **Theory** // Complexity Analysis, Data Structure and Algorithms, Design Patterns, and OOP

Professional Experience

Full Stack Developer, TedMob, Dbayeh

August 2023 – Till Now

- Collaborated closely with designers, the mobile development team, and management to deliver intuitive, responsive UIs and ensure a unified user experience across various devices and platforms.
- Managed and customized TedMob's proprietary CMS framework, streamlining content delivery and providing tailored content management solutions to meet diverse project requirements.

Software Developer Intern, Lyst Technologies, Jdeideh

July 2023 – August 2023

- Created screens through a user-friendly drag and drop interface built on top of Angular.
- Generated both static and dynamic reports using SQL queries and Eclipse BIRT.

Software Developer Intern, Homeresa, Nice, France

January 2022 – September 2022

- Collaborated with engineers and identified opportunities for continuous integration and process improvement.
- Created scalable code for custom business solutions using Angular in addition to identifying bugs and product defects.

Projects

SkyBid [[GitHub](#)]

Real-time bidding platform for private jet charter operators and brokers.

- **Front-end** // Angular and Styled Components
- **Back-end** // Node.js, Express.js, and Socket.IO
- **Database** // MongoDB

Training and Certifications

Full-Stack Web Development Bootcamp, SE Factory, Beirut

February 2023 – May 2023

Completed an intensive full-stack web development program covering cloud architecture, front- and back-end development, source control, and web application security over 14 weeks of lectures, workshops, and projects.
