PROFILE

Enthusiastic Frontend Developer with a growing skill set in React.js. Eager to apply my knowledge to create engaging and user-friendly web interfaces. Currently focused on learning and implementing modern frontend technologies to build responsive and interactive applications. Driven by a passion for web development and a commitment to continuous improvement.

EDUCATION

Bachelor's in Computer Science   11/2021 – 06/2024
Lebanese University   Beirut, Lebanon

CERTIFICATES

**AWS Certified Cloud
Practitioner** 🔗

SKILLS

- HTML
- CSS
- Tailwind css
- JavaScript
- React
- Git /GitHub

PROJECTS

LebTrips 🔗
- Developed a web app for planning trips in Lebanon using JavaScript, React.js, Vite, and Tailwind CSS.
- Integrated Firebase Firestore for data management.
- Utilized Gemini AI API for trip recommendations.
- Included Google authentication and links to Google Maps for location details.

Apple Website 🔗
- Developed a modern, visually appealing website clone of the iPhone 15 Pro using React.
- Utilized Tailwind CSS to achieve responsive and stylish UI components.
- Implemented GSAP (GreenSock Animation Platform) for seamless animations and interactive user experiences.

Movie App
•Created a dynamic movie application utilizing HTML, CSS, and JavaScript, integrating the TMDB API for movie data retrieval. •Implemented features for sorting movies by ratings, popularity, favorites, and upcoming releases.
•Enabled users to watch trailers, add movies to favorites, and search for specific titles, enhancing engagement.
