EDUCATION

License

Lebanese University Faculty of Technology
Saida-Lebanon

2021 - Present

Saida, Lebanon

Courses

- C language
- Very High-Speed Description Language
- Wide Area Network
- Php Language
- Network System Programming
- C# Language
- Web Development
- Local Area Network
- Relational Database
- Real-Time Programming

Lebanese Baccalaureate

Dr. Hikmat Al Sabbagh High Public School for Girls

2015 - 2021

Saida, Lebanon

INTERNSHIP AND WORKSHOP

Internship Program

Ogero

Saida, Lebanon

Achievements/Tasks

- It was an internship program that includes topics related to Cabling/Civil Work/installation of cables/cable Characteristics/mapping/earthing/fundamentals of Wi-Fi protocol 2.4GHZ/DSL network/Router configuration/IOT/AI/VOIP/SIP

Scientific Workshop Together For Chehim

Chehim, Lebanon

Achievements/Tasks

- It is a scientific workshop about Artificial Intelligence in developing applications related to Biomedical, Cybersecurity and Weather Forecast

SKILLS

C Language

C# Language

Visual Basic Language

SQL

Operating System

WEB Development

Configuration (WAN/LAN)

Troubleshooting

Php Language

Python

ASP.net

PROJECTS

Earthquake Detection

- Detection of earthquake using 555timer IC ,capacitors, and resistors in reality and the simulation was done using Proteus Software.

Design an Image processor using VHDL

- Apply basic image processing operations such as brightness adjustment and edge detection using VHDL language where simulations were done on ModelSim-Altera Software

SOFTWARES

MPlab -- Proteus Professional -- Microsoft Visual Studio --
Dev C++ -- MATLAB -- Cisco Packet Tracer -- Multisim --
Sharp Deveopler--PhpMyAdmin
