Bekaa, zahle

SUMMARY

Enthusiastic and detail-oriented computer science student at Holy Spirit University of Kaslik (USEK) with a passion for leveraging technology to solve complex problems. Adept in programming languages such as C/C++/JAVA/Python/SQL, I am eager to apply my skills in a challenging internship or entry-level position in the field of computer sciences. My academic coursework, combined with practical experience gained through internships, has equipped me with a solid foundation in web development, database management, and algorithm design.

EXPERIENCE

JUNE 5–JULY 27

INTERN, DAHER INTERNATIONAL FOOD COMPANY, DIFCO GROUP

IT Infrastructure Optimization:

- Implemented best practices in formatting and cabling, ensuring an organized and efficient IT environment.
- Created and managed a domain controller, overseeing user account creation and implementing access restrictions for enhanced security.

Networking Components Configuration:

- Developed a profound understanding of setting up and configuring essential networking components, including Wi-Fi routers, printers, and security cameras.
- Configured Elastix for VoIP communication, improving internal and external communication channels.

Network Security Enhancement:

- Strengthened network security by successfully implementing firewalls and pfSense, ensuring the confidentiality and integrity of digital assets.

IS Department Contributions:

- Gained proficiency in business intelligence tools, including Qlik Sense, Power BI, and Excel for data analysis.
- Executed SQL optimization techniques, enhancing database management and query performance.
- Developed an app on Qlik Sense, demonstrating skills in data visualization and business analytics.

Web Development and Programming:

- Acquired skills in HTML, CSS, and JavaScript, resulting in the creation of a small website.

EDUCATION

2005–2020

COLLEGE DES SOEURS DES SAINTS COEURS

2021–PRESENT

HOLY SPIRIT UNIVERSITY OF KASLIK

GPA 86

SKILLS

- Operating Microsoft Excel
- Structured Query Language (SQL)
- C++ /C / JAVA/ Python
- HTML /CSS/JAVASCRIPT/PHP
- Good communication skill
- Able to work in a team
- Great problem solving skill

LANGUAGES

- ARABIC
- FRENCH
- ENGLISH
