Lebanese American University | *Bachelor of Computer Science*

Beirut, Lebanon | 09/2021- Present

Saint Mary's Orthodox College | *Life Science*

Beirut, Lebanon | 09/2007- 07/2021

SKILLS

- **Programming Languages:** *Python, Java, C, HTML, CSS, JavaScript, JQuery, Ajax, PHP, SQL*
- **Microsoft Office:** *Word, Excel, and PowerPoint*
- **Languages:** *English, Arabic, French(B1 level)*

EXPERIENCE

Empowerment Through Integration | *Volunteer*

- Was educated about the experiences of the visually impaired through training.
- Assisted with activity and event preparation.
- Helped with activity implementation.

NASA Space Apps Hackathon | *Co-leader of the "Star Dust" team, Researcher*

- Researched information about the "Parker Solar Probe's" journey to the sun.
- Researched some of the Parker solar probe's important physical hardware and functions.
- Organized the team with the leader and the roles of the team members.
- Learned basic HTML and CSS.
- Presented to the judges how the team was organized, a website we made, and a game that showed the events of the probe's trip.
- Our team reached the top 15.

Integrated Digital Systems | *Full-stack development intern*

- Attended an introductory session in which we were given the internship program's goal.
- Was given steps for making a website through weekly meetings in Zoom.
- Created a website with my friend and each of us focused on different parts of the website.
- Created a database using Microsoft SQL Management Studio and Azure Data Studio.
- Worked on part of the front end of the website using HTML, CSS, JQuery, and Ajax.

INTERESTS

Research: I usually research new topics related to any scientific field including technology and mathematics.

Learning Programming skills: A good example is when I learned HTML and CSS, the experience was very fulfilling, and grasping those helped me expand my knowledge of web development in general.
