@ karim.borshalli1998@gmail.com

📍 Beirut, Lebanon

## SUMMARY

Highly skilled and motivated Senior Full Stack Developer with 2 years of comprehensive experience in both frontend and backend development. Proficient in designing, implementing, and maintaining web applications using a wide range of technologies and programming languages. Demonstrated expertise in delivering scalable and efficient solutions that meet client requirements and exceed expectations. Adept at collaborating with cross-functional teams to drive projects from concept to completion. Proven ability to adapt quickly to new technologies and methodologies while consistently delivering high-quality code and solutions.

## EXPERIENCE

### Python Developer

#### SE Factory

📅 2022 - 2023 📍 Beirut, Lebanon

Actively contributed to team discussions and brainstorming sessions to improve software development processes and methodologies.

- Participated in the full software development life cycle, including requirements analysis, design, implementation, testing, and deployment.
- Collaborated with a team of software engineers to develop and maintain high-quality software solutions.
- Utilized industry-standard programming languages and technologies to write clean and efficient code.
- Worked closely with clients to understand their needs and provide customized software solutions.
- Conducted thorough testing and debugging to ensure the reliability and functionality of the software.
- Participated in code reviews and provided constructive feedback to enhance code quality and maintainability.

## PROJECTS

### Hospital Management System Website

📅 2022 - 2023 📍 Beirut, Lebanon

🌐 <https://github.com/KarimB1998/HOSPITAL/tree/main>

Using HTML, CSS, JAVASCRIPT and PYTHON

- Developed a comprehensive hospital management system website as part of the senior project requirement for the Computer Science major.
- Utilized [programming languages/technologies/frameworks] to create a user-friendly interface for managing patient records, appointments, and medical inventory.
- Implemented features such as user authentication, data encryption, and secure data storage to ensure patient confidentiality.
- Conducted thorough testing and debugging to ensure the website's functionality and reliability.
- Presented the project to faculty members and received positive feedback for its efficiency and effectiveness in streamlining hospital operations.

## CERTIFICATION

### Full Stack Web Development Certification

Description: Earned a comprehensive certification in Full Stack Web Development through Udemy, covering front-end and back-end technologies including HTML, CSS, JavaScript, Node.js, React, and MongoDB.

Completed numerous projects and gained practical experience in developing dynamic web applications.

## SKILLS

Java	ReactJS	MySQL	JavaScript
TypeScript	CSS	HTML	Node.js
MongoDB	PHP	PYTHON	

## EDUCATION

### Bachelor's in Computer Science

#### Lebanese International University

📅 2020 - 2023 📍 Beirut, Lebanon

## PASSIONS

### Continual Learning

I have a strong desire to stay current on industry trends and improve my skills through continuous learning and professional development.

### Tech Innovation

I am passionate about exploring the latest technological advancements and leveraging them to create innovative software solutions.

## LANGUAGES

English  
Native

# PROJECTS

---

## Farm Management System

📅 2022 - 2023    📍 Beirut, Lebanon
