

Daniel Yehya

Computer and Communication Engineering Student

Telephone: +961 78 902 898

Email: dmyehya@ndu.edu.lb

Address: Aaramoun, Aley District, Mount Lebanon

LinkedIn: [Daniel-Yehya](#)

Objective

Motivated Computer and Communication Engineering student with a solid foundation in network systems, fiber optics, and programming. Seeking an internship in Software Development to apply technical expertise, hands-on experience, and problem-solving skills in delivering innovative solutions and optimizing systems for performance and reliability.

Education

September 2021 – Present **BE in Computer and Communication Engineering**
Notre-Dame University, Deir El Qamar, Lebanon

- **Important Courses:** Python, Matlab, C++, Computer Architecture, Data Structures, Object Oriented Design, Computer Networks, Microprocessor, Database, Software Engineering, Cloud Computing, Machine Vision...etc.
- **Life Scholarship Awardee**
- **Cumulative GPA:** 3.64/4
- **Expected year of graduation:** 2026

2020 – 2021 **Life Science Baccalaureate Degree**
Aaramoun Official Secondary School, Aaramoun, Aley, Lebanon

Experience:

July 2024 – September 2024 **Telecommunications Engineering Intern (Copper and Fiber Optics)**
Ogero , Badaro, Lebanon

- Enhanced understanding of telecommunications infrastructure and technology.
- Resolved fiber optic and copper cable issues, reducing downtime by 20% through effective troubleshooting.
- Configured and connected network systems, enhancing data transmission speeds by 10%.

August 2022 – September 2022 **Cashier**
Gray Makenzie Retail, Jnah, Lebanon

- Processed over 100 daily transactions with 99.8% accuracy and reduced error rates by 5% compared to the average.
- Managed efficiently high-volume transactions, resulting in a reduction in customer wait times
- Processed various payment methods, including cash and credit transactions, with zero discrepancies.

Volunteer/Extracurricular Activities

September 2021 – Present **Member in University Engineering Club and Physics Club**
Notre-Dame University, Deir El Qamar

- Coordinated and managed engineering events, activities, and competitions, ensuring successful execution and participant engagement, and team collaboration.

April 2023 – May 2023 **Deir El Qamar Municipality**

- Conducted interviews with 50+ locals, adding valuable historical data
- Organized and uploaded data to municipality website, enhancing online accessibility
- Increased site traffic through improved content

Skills

- Coding (C++, C#, Python, Matlab)
- Microsoft Office Tools (Word, PowerPoint, Excel)
- Fiber Optic (Splicing, OTDR Testing, Installation)
- Networking
- Network Troubleshooting
- HTML-CSS-JavaScript (self-taught)
- Problem-solving
- Communication and Interpersonal Skills
- Quick learning
- Multi-tasking
- Time Management
- Teamwork
- Attention to Detail
- SQL Server

Languages

- Arabic (Native), English (Full Professional)
