Summary

Ambitious Computer Science student at Lebanese International University, boasting a near-perfect GPA of 3.97, set to graduate in 2024. Specialized in backend and full-stack development, with a proven track record in PHP and Laravel, where I spearheaded the development of scalable RESTful APIs, enhancing application functionalities significantly. Demonstrated expertise in integrating sophisticated front-end technologies and robust database management systems to streamline and elevate user experiences. A collaborative team player, known for driving project success through innovative solutions and strategic project management, while consistently pushing the boundaries of tech to achieve and exceed development goals.

Education

Lebanese International University, Saida

Bachelor in Computer Science

2021 - 2024

3.97/4 GPA

Experience

XpertBot

Jan 2024 – April 2024

Laravel Developer Intern

Remote

- Served as the backend developer for a music application during the internship.
- Developed RESTful APIs utilizing Laravel framework to enhance the functionality of the app.
- Utilized Postman for API testing and validation, ensuring seamless integration and functionality.
- Collaborated effectively with the development team using Git, ensuring version control and streamlined workflow.

IDS-Integrated System Development

Nov 2023 – Jan 2024

Full Stack Web Developer Intern

Remote

- Gained proficiency in PHP fundamentals and MySQL for database management, implementing CRUD operations.
- Developed dynamic web pages and applications using PHP, integrating front-end technologies like HTML, CSS, and JavaScript.
- Applied PHP OOP principles for code modularity and scalability.
- Engaged in collaborative development practices and project management tools for effective teamwork and project success.

Projects

XpertBot: XpertTunes Music App

[Source Code](#)

- Served as the backend developer for the XpertTunes music application, utilizing Laravel framework to develop robust APIs.
- Implemented API endpoints for seamless integration of features and functionalities.
- Conducted extensive testing using Postman to ensure API reliability and functionality.
- Collaborated with the development team via Git, ensuring version control and smooth workflow.
- Contributed to the enhancement of user experience and functionality of the app through continuous development and updates.

Technical Skills

Languages: Python, Java, Html, C, CSS, C++, JavaScript, PHP

Frameworks/Libraries: Flutter, Laravel, CSS, Bootstrap

Developer Tools: Postman, VS Code, GitHub, Android Studio, NetBeans IDE, Arduino IDE , Cisco packet tracer.

Relevant Coursework

- Data Structures
- Database Management
- Computer Network
- Artificial Intelligence
- Machine Learning
- Software Engineering
- Operating System
- Time series
- Computer Architecture
