## Experience

---

### Internship

Ghia Holding(G&A)| Summer 2023

- Led the development of a Customer Relationship Management (CRM) website.
- Utilized ReactJS for dynamic user interfaces, MongoDB and NodeJS for server-side logic.

### UI/UX Consultant

Fitchain | 2023

- Collaborated closely with the development team to provide detailed design specifications for AI features, planning for their future implementation to automate and personalize user interactions.
- Enhanced the overall user experience by integrating intuitive navigation features into the homepage, significantly improving app usability.
- Upgraded the application's visual design on Figma, implementing modern UI principles.

## Projects

---

### Final Year Project Flutter Mobile App “UniLink”

- Designed a comprehensive UI/UX of the mobile app design using Figma.
- Developed UniLink, a mobile application tailored exclusively for university students, focusing on bridging social networking with academic resource sharing.
- Implemented the backend infrastructure using Node.js and MongoDB and firebase.

### “Batroun Guide”

- Designed the UI/UX design of Batroun Guide ensuring compatibility with web and mobile apps using Figma.
- Collaborated closely with development team to ensure the designs were both realistic and optimized for speed.
- Utilized animations in Figma to create an interactive visual design, enabling seamless navigation between pages through button interactions.

### “Khayal” Ecommerce Shop

- Developed an ecommerce website using HTML, CSS, JavaScript, PHP, and MySQL.
- Engineered back-end functionalities incorporating advanced SQL queries for optimal database management and performance.

## Education

---

BS Computer Science

Byblos - 2024

- Lebanese American University

Honors High School Graduate

Cornet Chehwan – 2020

- Saint Joseph School

## SKILLS

---

Programming Languages: Java, Python, HTML, CSS, JavaScript, React, NodeJS, MongoDB, SQL,  
Design skills: Figma, Canva, Adobe Photoshop
