

## Layan Yamani

Beirut, Lebanon – Mobile: +961 70 357 997 – [LinkedIn](#) – [GitHub](#) – [layanyamani@gmail.com](mailto:layanyamani@gmail.com)

### EDUCATION

<b>American University of Beirut, Lebanon</b>	Aug. 2020 – Jun. 2024
<ul style="list-style-type: none"><li>• BEng in Computer and Communications Engineering, GPA: 3.67/4.0</li><li>• Placed on the Dean's Honor List, Spring 2023, Fall 2024</li></ul>	
<b>International College (IC), Beirut, Lebanon</b>	Sep. 2004 – Jun. 2020
<ul style="list-style-type: none"><li>• French Baccalaureate- Math Specialty</li></ul>	

### PROFESSIONAL EXPERIENCE

<b>Valoores, Soft Solution, Beirut, Lebanon – Data Scientist and AI Intern</b>	Jun. 2023 – Aug. 2023
<ul style="list-style-type: none"><li>• Led initiatives at Tenn.ai, an innovative AI company based in Doha, Qatar, focusing on advancing AI capabilities in the Arabic language, which enhances the system's versatility for a variety of file formats</li><li>• Worked on advanced NLP techniques</li><li>• Developed strategies for monitoring shoplifting incidents, using the Mapbox platform</li></ul>	
<b>Teaching Assistant, American University of Beirut</b>	Jan. 2024 – Jun. 2024
<i>EECE 321 course- Computer Organization</i> <ul style="list-style-type: none"><li>• Guided and assisted students in their course and contributed to the development of their capabilities</li></ul>	

### PROJECTS

<b>CTF project, boot to root- in the Ethical Hacking II course:</b>	Apr. 2024
<ul style="list-style-type: none"><li>• Attained NT AUTHORITY:SYSTEM privileges on all three Windows Machines, uncovering hidden flags</li><li>• Achieved root-level access on a Linux box, demonstrating proficiency in privilege escalation techniques</li></ul>	
<b>Lie Detection using Machine Learning – Final Year Project:</b>	Sep. 2023 – Jun. 2024 (Expected)
<ul style="list-style-type: none"><li>• Developing a non-invasive lie detection system by integrating facial expression analysis and speech processing techniques using Machine Learning algorithms</li><li>• Collecting data by interviewing subjects engaged in deceptive scenarios, ensuring robust model training</li></ul>	
<b>Cinema Database- in the Database Systems course:</b>	Nov. 2023
<ul style="list-style-type: none"><li>• Developed a complete database, design from ER to Normalization, to Implementation</li><li>• Used PostgreSQL and create a python application in Flask and React</li></ul>	
<b>Car dealership website- in the Software Engineering course:</b>	May 2023
<ul style="list-style-type: none"><li>• Developed the website using Node.js and Firebase</li><li>• Used Agile methodology in the design and development of the application</li><li>• Allowed users to explore, select and schedule test drives with seamless accessibility across various devices</li></ul>	
<b>CTF project, boot to root- in the Ethical Hacking I course:</b>	Dec. 2022
<ul style="list-style-type: none"><li>• Acquired root access to an OSCP like machine and retrieved the flag, demonstrating proficiency in penetration testing tools</li><li>• Conducted a comprehensive penetration test on a Debian Linux server</li><li>• Wrote a professional penetration testing report documenting discovered vulnerabilities, attack vectors, and suggesting suitable remediation</li></ul>	

### EXTRACURRICULAR ACTIVITIES

<b>Women in Engineering (WIE), AUB – Treasurer</b>	
<i>Previously held the position of Event Officer</i>	Sep. 2021 – Present
<ul style="list-style-type: none"><li>• Led 7 members in 2 sub-committees to plan activities and project accordingly</li><li>• Demonstrated financial skills and attention to maintain the branch's financial stability</li></ul>	
<b>Lebanese National Higher Conservatory of Music- Baccalaureate of Piano</b>	Sep. 2009 – Present
<ul style="list-style-type: none"><li>• Performed piano concerts in the LNHCM</li><li>• Assisted students in their piano, theory, and harmony classes</li></ul>	

### SKILLS

**Languages:** Fluent in English, Arabic, French  
**Technical Skills:** C++, Python, VHDL, PSPICE, MATLAB, HTML, CSS, JavaScript, SQL, React, Flask, Django, MongoDB, GNS3  
**Cybersecurity:** Reconnaissance, OSINT, Wi-Fi Hacking (WEP, WPA, WPA2, de-authentication & Evil twin attacks), Scanning using Nmap & Masscan, Enumeration of network protocols such as DNS, SMB, SNMP, Vulnerability Scanners: Nexpose, Nessus, OpenVAS, Windows Privilege Escalation: kernel Exploits, Service Misconfigurations, Unquoted Service Path, DLL Hijacking, Weak Registry Permissions, Insecure Service Executables
