OBJECTIVE

Undergraduate Computer Science student seeking internship to apply my skills. Eager to contribute to innovative projects, learn, and grow within your dynamic team

EDUCATION

2022-present | Antonine University, Lebanon | Computer Science, (Expected Graduation : Spring 2025)

2021 | Zgharta Official High School, Lebanon | Lebanese Baccalaureate in Life Science (SV)

EXPERIENCE

February 2024-April 2024 | Eurisko mobility | Java& springBoot | Internship

- Implemented secure communication protocols using CORS (Cross-Origin Resource Sharing) and CSRF (Cross-Site Request Forgery) protection in Spring applications. Acquired hands-on experience in exploring various features of Spring Boot for efficient application development. Creating rest api with springboot, spring framework and hibernate
- Utilized JWT (JSON Web Token) and OAuth2 for user authentication and authorization in Java Spring projects, ensuring secure access control.
- Developed skills in Java Database Connectivity (JDBC), Java Persistence API (JPA), and Hibernate for effective database interaction and object-relational mapping.
- Applied knowledge to create RESTful APIs using Spring Boot and Spring Framework, integrating with Hibernate for database operations.

June 2023-September 2023| Bamboo Asian Cuisine | Waiter

- Developed strong interpersonal skills by interacting with diverse customers, understanding their needs, and ensuring a positive dining experience
- Communicated effectively with kitchen staff and other team members, fostering a collaborative work environment and ensuring smooth operations during busy hours.
- Demonstrated excellent time management skills, balancing customer service, order processing, and table turnover efficiently.
- Developed problem-solving skills by handling customer complaints and special requests, finding quick and satisfactory solutions.
- Participated in team meetings, contributing ideas and suggestions to improve service quality and operational efficiency.
- Developed basic financial skills related to handling cash, making change, and reconciling receipts at the end of shifts.

July 2022 – September 2022 | Via Telecom OMT | Store Supervisor

- Conducted regular stock audits and implemented data-driven strategies to minimise excess inventory and reduce holding costs.
- Generated comprehensive reports on inventory turnover rates, supplier performance, and customer preferences, facilitating data-driven decision-making.

- Interacted with customers to understand their requirements, provide product information, and address concerns promptly and professionally.
- Managed customer complaints and product returns, analyzing patterns to identify root causes and implement preventive measures.
- Identified inefficiencies in existing processes and implemented improvements, such as automating routine tasks and optimizing stock storage layouts.
- Maintained detailed records of inventory transactions, supplier agreements, and customer interactions, ensuring accurate and up-to-date documentation.
- Developed standardized documentation templates, enhancing consistency and clarity in inventory-related communications.

VOLUNTEERING

August 2020 | Equipe Missionnaire de Nazareth, Lebanon | Volunteer

- Collaborated with a team of volunteers to sort and distribute food items to families in need.
- Led a group of volunteers in coordinating the provision of meals to over 500 families after the explosion of Beirut port
- Developed strong communication and interpersonal skills while interacting with diverse community members.

November-2022|University Antonine, Lebanon | Project management

- Led a team of volunteers in organizing and executing a fundraising campaign for a friend diagnosed with cancer.
- Coordinated fundraising events, including charity walks, bake sales, and online crowdfunding initiatives, raising 34,671,000 LBP and 831\$ and 50 AUD to support the cancer patient's medical expenses.
- Developed and implemented marketing strategies, utilizing social media platforms and community outreach to increase project awareness and participation.
- Collaborated with local Schools to secure sponsorships and coverage, expanding the project's reach and impact.
- Managed project donation tracking, ensuring transparency and accountability to donors and supporters.
- Provided emotional support and resources to the cancer patient and their family, fostering a sense of community and solidarity during their challenging time

CERTIFICATES

2023|Center For Career Development, Lebanon |Career advising

2023 | CENTRE MINE, Lebanon | Decoding personalities through body language

2023 | CENTRE MINE, Lebanon | Decoding body language

2021| UNICEF, Lebanon | Agriculture course completion

2021| UNICEF, Lebanon | Team Leading course completion

2020| US EMBASSY , Lebanon | Completion of the intensive two-year English Access Micro scholarship Program certificate

2019| US EMBASSY, Lebanon | Access 13 Project Citizen Training & Showcase

SKILLS

Technical Skills: Programming languages (Java, JavaFX, C++) Database Management (SQL, MongoDB), Web Development (HTML, CSS, JavaScript, TypeScript), Operating System (Windows,), Software Development Tools (Intelij, Visual Studio Code, Eclipse, Git)
