SKILLS

Computer: Microsoft
office, Auto CAD, Aspen
HYSYS

Languages: English,
French, Arabic

EDUCATION

EXTRA-CURRICULAR ACTIVITIES

2021 —2024
University of Balamand
Major: Chemical Engineering
GPA: 3.9/4
High Distinction
Dean's Honors List

2006 — 2021
Val Pere Jacques
Section: Life Sciences
GPA: 17/20
High Distinction

2017 - present
FLOWERS CENTER AND HANNA EL KAZZI FARMS
Flowers and plants wholesale shop and farms that are family businesses owned by my father Hanna El Kazzi. Worked in many positions including cashier, manager, accountant, secretary, supervising crops planting and growth, managing fertilizers, pesticides and fungicides.

2017 - 2021
VOLUNTEER, REPRESENTATIVE
Caritas Lebanon Youth
NGO aiming to break the vicious cycle of poverty and social isolation and restore hope for a better future. We hosted all kind of events and activities to help people in need.
After Beirut's explosion (August 4, 2020) cleaning up the wreckage, rebuilding homes, and delivering food to those impacted were all priorities for 60 days.

2021 - 2023
FOUNDER/PRESIDENT OF UOB ECO CLUB
Overseeing initiatives and activities such as raising awareness of sustainability, addressing environmental issues, helping reduce our ecological footprint and advocating for change.
Club awards: Rising Star, Sustainability, Social Media.

August 2022
PARTICIPATION IN ACHEMA CONGRESS - Frankfurt
A congress where manufacturers and service providers presented their products for chemical, pharmaceutical, biotech research, manufacturing, energy and environmental services.

2023
Trainings with the WFD
(Westminster Foundation for Democracy)
As part of the WFD's program to boost Parliament's engagement with young people in the MENA region:

- Role and Functions of the Lebanese Parliament (14-15 January)
- Public Policy (25-26 February)
- Communications and Advocacy (11-12 March)
- Development of evidence based policy briefs (22-23 July)

2023-present
BOARD MEMBER OF UOB'S SSCHE
Elected to join the Student Society of Chemical Engineers' board and chosen to manage the club's social media.

2023-present
PART OF A RESEARCH TEAM WITH UOB'S OFFICE OF STUDENT AFFAIRS
Chosen by the OSA's president to work on researches concerning students such as the effect of club activities and campus life on the mental health of engineering students.

2024
PARTICIPTION IN INJAZ LEBANON'S INNOVATION CAMP
Chosen to participate in FNF Lebanon and INJAZ Lebanon's SPROUT program aiming to grow green entrepreneurs. Workshops promoted critical thinking and problem solving skills to address environmental challenges in Lebanon. At the end of the program, my colleagues and I presented a product named "Chocolight" that was one of the 3 winners of the program.

April - May 2024
RESEARCH AT THE UNIVERSITY OF GRANADA
Selected by SWaTh (Erasmus Project) for a research training position at the University of Granada in Spain. The training included collaborating with PhD students on a research concerning detection of heavy metals contamination in water and another on production of activated carbon for the capture of CO2 in air.

2024
LIRA program 2024 by IRALEB winner
In collaboration with colleagues at the University of Balamand our project entitled "Sustainable Conversion of Organic Waste to Organic Fertilizers using Clean Energy" got shortlisted among 109 projects in Lebanon and was one of the 3 winners at the final stage
