SUMMARY

Full Stack Engineer with strong front-end development experience drawing on over 1 year as an Apprentice Senior Web Developer at CodSoft. Developed Bootstrap JS components, created maintainable CSS using preprocessors, and integrated RESTful APIs for dynamic data interaction. Adept at collaborating within Scrum-based Agile teams to release functional code swiftly. Seeking to leverage broad technical skills to contribute effectively to innovative web, mobile, and API solutions.

SKILLS

- **languages:** English
- **Technical Skills:** PostgreSQL, SQL Server, MySQL, Oracle, Node.js, TypeScript, React, Next.js, Express.js, Jest, OCI-compliant containers, Docker, K8s, CI/CD tools, Bamboo, Terraform, REST APIs, JavaScript, Tailwind CSS
- **other skills & certifications:** coding for kids
- **Others:** Online learning, Computer Engineering, Chemistry

WORK EXPERIENCE

CodSoft

Dec 2021 - Dec 2022

Apprentice Senior Web Developer

- Developed Bootstrap JS component controls using jQuery and JavaScript, enhancing the functionality of web applications
- Created CSS code utilizing preprocessors such as Less and Sass to ensure scalable and maintainable stylesheets; proficient in Tailwind CSS
- Implemented task automation using NPM Scripts, improving development efficiency and workflow while actively participating in CI/CD processes
- Utilized version control systems like Git to manage and track changes in the codebase, facilitating seamless collaboration within the development team
- Actively participated in code reviews to maintain code quality, ensure adherence to coding standards, and drive continuous improvement
- Collaborated closely with UX/UI designers to translate design mockups into visually appealing and intuitive user interfaces and ensuring smooth integration of custom and third-party packages
- Gained exposure to some aspects of full-stack web development including backend processes using Node.js

CodAlfa MICROVERSE

Dec 2020 - Dec 2021

Junior Front-end Developer Bootcamp-intern

- Developed user-friendly interfaces using HTML5, CSS3, and JavaScript, prioritizing user experience; integrated with front-end frameworks like React
- Integrated RESTful APIs to fetch and display dynamic data on web pages, enhancing real-time user interactions and data visualization
- Collaborated with back-end developers to seamlessly integrate front-end components with server-side logic using Express.js, ensuring smooth application functionality
- Stayed updated on emerging trends and best practices in front-end development, incorporating new technologies and methodologies like TypeScript to enhance project outcomes and efficiency

EDUCATION

CIS College

- Jan 2023

BA/BS, Computer Science

Lebanese University (LU)

- Jan 2021

Master of Science, Chemical Engineering

Lebanese University (LU)

- Jan 2008

Bachelor of Science, General Chemistry
