SUMMARY

Highly motivated and competitive Full Stack Web & Mobile Developer seeking a challenging career in cybersecurity. Passionate about continuous learning and applying my technical skills to solve real-world security problems. Proven track record of success in competitive environments, demonstrated by ranking 3rd in both the South Lebanon Kyokushinkai Karate Tournament and the Lebanese Muay Thai Championship. Eager to contribute my technical expertise and unwavering dedication to a team focused on securing the digital landscape.

EXPERIENCE

Web Development

World of Business   **May 2024 -May 2024, Lebanon, Saida**

· **Learned Laravel:** Laravel is a popular PHP framework used for building web applications. By learning it, you gained valuable skills in areas like routing, database interaction, and templating.
· **Worked on an E-commerce Website:** You likely applied your Laravel knowledge to develop features or functionalities for an online store. This could involve things like product management, shopping cart systems, or user accounts.
· **Developed a Front-End Website:** You might have created the visual elements and interactive features that users see and interact with on the website. This could involve using HTML, CSS, and potentially JavaScript.

Cameraman/Director Assistant

PalTV   **July 2022 - January 2023, Beirut**

· I learned the concepts of using TV camera and worked with it.
· I also learned and worked with the concepts of director assistant.
