## SUMMARY

Highly motivated software developer with over 2 years of experience in full-stack development. Proficient in JavaScript, PHP, Laravel, React, and Next.js with hands-on experience in building responsive web applications using TailwindCSS and Bootstrap. Seeking to leverage my technical expertise and problem-solving skills in a challenging software development role.

## EDUCATION

**Institut Ahmad Akram Awaida**

**Sep 2021 – Jun 2022**

*Technical License Diploma of Business Computer: Programming Section*

*Lebanon, Tripoli*

## RELEVANT COURSEWORK

- Data Structures
- Algorithms Analysis
- Systems Programming
- System Architecture
- Network

## COURSES

Full Stack Web Development at youbee.ai

Developed skills in Javascript, PHP, MySQL, and web frameworks Laravel, Angular

Created multiple projects including responsive websites and web applications.

## PROJECTS

**Laravel Blog** | *Laravel, TailwindCSS, Javascript*

- Implemented secure user registration and login functionalities.
- Users can create new blog posts, edit existing ones, and delete posts they have authored.
- Implemented slugs for each post to create descriptive, enhancing search engine visibility and improving user experience.
- Users can save posts to read later, with the ability to view and remove saved posts.
- Allowed users to update and manage their profiles edit profile image and profile settings.
- Implemented a like button using the Fetch API to send asynchronous requests to the server, updating the like count in real-time.
- Enabled users to comment on posts with a structured comment system with supported replies to comments and nested replies to those replies provided the ability to delete both comments and replies.
- Implemented a search bar for users to search posts by keywords, utilized tailwindcss to ensure a responsive and modern user interface.
- Efficiently managed data storage and retrieval using Eloquent ORM, ensured application security using middleware and policies to protect routes and actions.
- View Project : [github.com/ibrahimjml/Laravel-tailwind-blog](https://github.com/ibrahimjml/Laravel-tailwind-blog)

**JavaScript Web Application** | *Javascript, CSS*

- Developed 8 sections demonstrating advanced DOM manipulation techniques.
- Built an interactive online shop with the following functionalities: Showcased products dynamically using JavaScript, Implemented a shopping cart where users can add, remove, and update item quantities.
- utilized Css to ensured a seamless user experience across various devices and screen sizes.
- View Project : [github.com/ibrahimjml/javascript-project](https://github.com/ibrahimjml/javascript-project)

**Social Media Web Application** | *PHP, MySQL, CSS, Javascript*

- Implemented secure user signup and login functionality.
- Enabled users to create, edit, and delete posts.

- Integrated a like button with Fetch API for post interaction, and implemented a follow feature allowing users to follow each other.
- Implemented a search bar for users to search for registered users.
- Designed and optimized MySQL database for efficient data storage.
- Implemented security best practices to protect user data and prevent unauthorized access.
- utilized CSS to ensure a seamless user experience across various devices and screen sizes.
- View Project : [github.com/ibrahimjml/php-project](https://github.com/ibrahimjml/php-project)

## EXPERIENCE

---

**yubee.ai**

**Jan 2024 – Mar 2024**

*web developer intern*

*Remote*

- Developed full-stack web applications which processed, analyzed, and rendered data visually
- Managed time-sensitive updates, including content changes and database upgrades .
- Collaborated with team members using version control systems such as Git to organize modifications and assign tasks.

## TECHNICAL SKILLS

---

**Languages:** HTML, CSS, Java, JavaScript, PHP, SQL, C, Visual Basic .

**Frameworks:** Laravel, React, Next.js, Express.js, Angular, Bootstrap, TailwindCSS.

**Databases :** MySQL, MongoDB .

**Tools :** Linux, GitHub.
