## EDUCATION

2010-2022

BACHELOR OF SCIENCE | COMPUTER SCIENCE AND  
COMPUTER COMMUNICATIONS EMPHASIS

AUCE (American University Of  
Culture And Education, Badaro

2008-2009

LEBANESE BACCALAUREATE  
(LIFE SCIENCE)

## SKILLS

- JavaScript
- MySQL
- Ansible
- TypeScript
- ReactJS
- Golang
- NodeJS
- CSS
- Teamwork
- Problem-Solving
- Project Management
- Time Management
- Leadership
- Effective Communication

## LANGUAGES

English  
French  
German  
Italian

## CERTIFICATION

CyberSecurity Certificate 2023-2024  
CIS COLLEGE with internship  
Computer Languages Certificate 01/2024-04/2024  
CIS COLLEGE  
Certification of Achievement by Agents Training and  
Guidance Unit 09/2023  
OMT & WESTERN UNION SERVICE TRAINING  
Certification of Completion of New PTM Structure,  
Intro to Block Based Coding and How to Conduct  
Quality Class  
Brightchamps

# RAMIZEAITER

## FULL STACK DEVELOPER

## PROFESSIONAL SUMMARY

Versatile and results-driven Full Stack Developer with extensive years of experience in software development and IT support. Proficient in JavaScript, Python, React, CSS, Ansible, Golang, and Node.js. Skilled in designing and implementing end-to-end solutions, troubleshooting IT systems, and ensuring operational efficiency. Strong problem-solving abilities and a collaborative team player. Experienced in Agile methodologies and committed to delivering high-quality software solutions. Continuously learning to stay current with technological advancements.

## WORK EXPERIENCE

### IT SUPPORT

NMSM COMPANY

2022--CURRENT

- Designed and developed robust, scalable, and efficient applications utilizing a range of programming languages, including Html, Css, Javascript, Ansible, Golang, NodeJS, Laravel, Php, and Python.
- Utilized expertise in both front-end and back-end development to deliver comprehensive solutions, leveraging frameworks such as Angular, Reactjs, and Laravel.
- Demonstrated proficiency in database management, including Sql, MongoDB, and Php, ensuring data security and integrity.
- Applied knowledge of network security and Cisco CCNA to ensure secure and reliable application deployment.
- Collaborated with cross-functional teams to design and implement user-centered applications, leveraging UX/UI design principles and SEO best practices to drive business results.

### Online Programming Tutor Brightchamps

2019-2021

- Develop and present interactive programming lessons tailored to students' skill levels and interests, ensuring an engaging learning experience.
- Assess individual student needs and adapt teaching methods to support diverse learning styles and pace, fostering a supportive and effective learning environment.
- Track students' progress through regular assessments and provide constructive feedback to help them improve their coding skills and problem-solving abilities.
- Encourage practical application of programming concepts through coding projects, exercises, and real-world scenarios, promoting active learning and critical thinking.
- Offer continuous guidance and mentorship, addressing students' queries, troubleshooting issues, and motivating them to achieve their learning goals and succeed in programming..

### Mobile Application and Software

03/2023-02/2024

Directly Hired

- Utilize Flutter and Dart to design, develop, and maintain cross-platform mobile applications, ensuring high performance and responsiveness for both iOS and Android platforms.
- Leverage Android Studio and Kotlin to build robust and user-friendly native Android applications, implementing modern design patterns and best practices.
- Perform thorough code reviews and rigorous testing (unit, integration, and UI tests) to ensure code quality, functionality, and performance, identifying and fixing bugs proactively.
- Work closely with designers, product managers, and other developers to understand requirements, contribute to the design process, and deliver high-quality software solutions that meet user needs.
- Continuously research and implement new technologies, tools, and best practices in mobile application development, ensuring that the applications remain modern, efficient, and competitive in the market.

### Internal Security Government

2013-Current

- Develop and enforce comprehensive security protocols and policies to protect the organization's internal systems and data from unauthorized access and potential threats.
- Continuously monitor network and system activity using advanced security tools and software to detect, analyze, and respond to security incidents and vulnerabilities in real time.
- Regularly perform security audits and vulnerability assessments to identify weaknesses, recommend improvements, and ensure compliance with security standards and regulations.
- Lead the incident response efforts by investigating security breaches, coordinating with relevant teams to mitigate risks, and implementing corrective actions to prevent future incidents

### Software Developer Fiverr and Upwork

2022-Current

- Designed, developed, and deployed software applications using various programming languages and technologies, ensuring high quality and scalability.
- Collaborated with cross-functional teams to identify and prioritize project requirements, and implemented solutions that met business needs and user expectations.
- Developed and maintained multiple databases, ensuring data security, integrity, and performance, and optimized queries for efficient data retrieval.
- Troubleshoot and debugged software issues, and implemented fixes and improvements to ensure optimal system performance and user experience.
- Stayed up-to-date with industry trends and emerging technologies, and applied this knowledge to continuously improve software development skills and methodologies.
