EXPERIENCE

Codi_Tech, Beirut, Lebanon | **Fullstack Web Developer**   June 2023 - Jan 2024
- Building Web and Mobile applications using various languages and frameworks.
- Analyzing, developing, and coming up with solutions to critical problems.
- Applying Agile methodology in projects and optimizing team collaboration with git.
- Improved applications' accessibility features.

SE Factory, Beirut, Lebanon | **Fullstack Web Developer Trainee**   May 2022 - Jan 2023
- Intensive Full Stack Web development program.
- Developing the Backend and the Frontend, and designing the database.
- Source control and Web application security.

PROJECTS

Ucard — Create Your Own Digital Business Card | Repo

Developed a Mobile App which allows users to create their own unique digital business cards that they can share with others by tapping their phone or scanning a code. Ucard matches cards with similar attributes together as suggested cards, providing a seamless and intuitive networking experience.

Frontend: React Native and TypeScript.

Backend: Node.js, Express, Mongoose, and MongoDB.

Task Manager — Your Task Management Website

Introduced a task management website that allows user to manage their task on so many levels. Project especially focuses on backend tasks and solving 'missing function level access control' exploits.

Frontend: React and CSS | Repo

Backend: Node.js, Nest.js, Prisma, and PostgreSQL | Repo

EDUCATION

Bachelor's in Computer Science, LIU, Beirut, Lebanon   Sept 2019 - July 2022

LANGUAGES

- English: Native language
- Arabic: Native language
