Russian (Beginner)

# Talal Badreddine

## Full stack developer

Lebanese University Computer Science graduate with a strong commitment to creating value and helping the next generation of youth by applying my acquired knowledge. With two years of experience in the field, I have demonstrated my ability to quickly learn and effectively implement new processes in the workplace.

## Experience

### AG\_PARTS

September 2023 - Present

#### Full Stack Developer

- Built and maintained robust back-end services with NestJS, utilizing its modular architecture and TypeScript support to create scalable and maintainable server-side applications.
- Developed dynamic and responsive front-end applications using Next.js, leveraging its server-side rendering and static site generation capabilities to enhance performance and SEO.
- Implemented efficient database access and management using Prisma ORM, ensuring type-safe database interactions and streamlined data modeling.

### Anywr

September 2022 - Feb 2024

#### Technical Support

- Developed and maintained REST APIs and gRPC microservices, enhancing the performance and scalability of client applications.
- Collaborated with development teams to identify and resolve software bugs, contributing to higher product quality and reliability.
- Wrote and optimized SQL queries to retrieve and manipulate data for reporting and troubleshooting purposes, improving data accessibility and decision-making.

### ESA CODING LAB Bootcamp

April 2022-September 2022

The Full Stack web development bootcamp, developed by ESA Coding Lab in partnership with ESIEE IT France, is a 5 months immersive experience that teaches junior-level web developers the skills needed to be a full stack web developer.

- Worked with languages such as Javascript , PHP.
- Worked with technologies such as React, Node, and Express.
- Experience with Agile best practices.
- Experience working with and creating REST API's
- Worked with technologies like Github, ClickUp, Git and Postman.

### Swift Development Internship

January 2022-March 2022

- Acquired proficiency in Swift programming language through hands-on experience and mentorship.
- Developed iOS applications from concept to deployment, gaining insights into the app development lifecycle.
- Implemented user interface designs using UIKit or SwiftUI, enhancing user experiences on iOS devices.
