OBJECTIVE

B.S. in Computer Science graduate from Lebanese International University, eager to start my career as a Spring and Java Developer. With a solid foundation in software development and hands-on experience in creating web applications and backend systems, I am prepared to contribute my knowledge and skills to a dynamic and innovative team. I am passionate about learning and growing in a tech-driven environment.

EDUCATION

Lebanese International University
Bachelor of Science in Computer Science

SKILLS

Technical Skills:

- Java
- SQL
- Python
- JavaScript
- TypeScript

Frameworks & Libraries:

- Spring Boot
- Angular
- React Native
- Bootstrap

Databases, Web-Technologies & Tools:

- MySQL Database
- HTML-5 & CSS-3
- REST APIs
- WebSocket
- Git & GitHub
- Postman

LANGUAGES

- English (Fluent)
- Arabic (Native)

References Upon Request

PROJECTS

E-Commerce Website

Angular & Spring Boot

2024 - Present

- Developing a Spring Boot back-end using REST APIs and MySQL database for managing products and orders.
- Creating a single-page application with the server using Angular, Angular services, and HTTP requests.
- Using Spring security, OAuth 2, and JWT for authentication and authorization mechanisms.
- Integrating Stripe API to process credit card payments.

Chat Application

JavaScript & Spring Boot

2024 - Present

- Building a real-time chat application using WebSocket for real-time communication.
- Developing a Spring-Boot back-end to handle user connections and messaging.
- Using Spring security, OAuth 2, and JWT for authentication and authorization.

Event Management System (Attend'It)

React Native, JavaScript, & Spring Boot

March 2024- June 2024

- Developed a cross-platform mobile application using React Native for managing and attending events.
- Created a Spring Boot back-end using REST APIs and MySQL database to handle events and users.
- Implemented Spring security, and JWT for authentication and authorization.
- Designed and developed user profile management features for editing, viewing, and updating user information.
- Developed an intuitive dashboard using Bootstrap for administrators to manage events and users.
