PROFILE

As a dedicated and passionate professional, I pride myself on being a hardworking and quick learner with a cooperative spirit. My enthusiasm for embracing new challenges fuels my drive to continuously expand my skill set.
An outgoing personality, excellent communication skills, and a keen eye for detail, I excel at working under   pressure and handling stressful situations effectively.

INTERNSHIP

Frontend Developer Intern

FOO   Mar 2024 - Jun 2024

- Learned Laravel 10 , Angular 16 and Ionic 8.
- Did an E-commerce website using Laravel and Angular and a technique that uses voice command library to manage the website and allowing users to add products via speech input. Key features included product management, real-time notifications, and multilingual support.
- Learned PWA and used it in the E-commerce website as well.
- Did an Ionic app using an already existing web applications.

SIDE PROJECTS

- **React Project: User and Product Management:**
  Developed dynamic /users and /products pages using React.js with reusable components. Integrated DummyJSON API with Axios for data fetching, including dynamic filters, pagination, and page size options (5, 10, 20, 50) and a client side search filter.

- **React Project: Interactive Portfolio:**
  Developed an interactive portfolio using React. Integrated Three.js for 3D models to enhance visual appeal and user engagement. Implemented EmailJS for seamless messaging and used Bootstrap for a modern, responsive design.

- **Rest API :**
  Developed using Express.js and Node.js.

- **Movie Fight**
  Utilized JS, HTML,and Bulma to compare movie ratings and display results (fetch data from an API).

- **Restaurant website**
  Two dynamic web applications: User and Admin interface using html, CSS, JavaScript, and PHP| teamwork

- **Send and browse CV**
  Built a web application using ASP.NET Core 5
