Summary

I am a fullstack developer specializing in crafting seamless user experiences, driven by a passion for functional and aesthetically pleasing websites. My expertise includes building dynamic web applications with robust backend solutions in Laravel and intuitive frontend interfaces in React.js. With a strong interest in modern web technologies, I continually seek to innovate and enhance user experiences.

Experience

Backend Developer

Saida, Lebanon Sep/2023 - March/2024

Folfol

- Spearheaded development of CMS and API using Laravel and Inertia.js, overcoming integration challenges for seamless communication.
- Managed data source integration, enhancing platform scalability and performance.
- Collaborated with team members to ensure API endpoint reliability and functionality through rigorous Postman testing.
- Implemented efficient backend solutions, boosting team productivity and slashing development time.
- Leveraged React.js for frontend development, crafting a responsive and dynamic user interface, while laying the groundwork for Folfol's future success in the Lebanese taxi industry.

Backend Developer

Freelance Project, Lebanon

maakmaghdouche

- Led integration of Wish Payment Gateway into a donation system for a freelance client.
- Successfully integrated payment processing functionalities using PHP and HTML, ensuring seamless donation transactions.
- Ensured compliance with client requirements and provided ongoing support for the integrated payment solution.

Projects

Fullstack Developer

(Laravel, React.js, Tailwind CSS)

Chirper - Twitter Clone

- Developed a social media website similar to Twitter, leveraging Laravel and React.js.
- Implemented features such as post creation, liking, saving, and commenting.
- Utilized Tailwind CSS for responsive and visually appealing user interface design.
- Integrated WebSocket for real-time notifications, ensuring users receive instant updates on interactions like likes, comments, and follows.

Education

Lebanese International University

Saida, Lebanon 2021-2024

Bachelor of Science in Computer Science - GPA 3.43
