PROFILE

I am a highly motivated computer science student with a deep passion for frontend development and backend development. Currently pursuing my Bachelor's degree in Computer Science, I have built a solid foundation in programming languages, algorithms, and data structures, focusing particularly on backend technologies and app development framework.

RELEVANT COURSES

- Object Oriented Programming
- Database Systems
- Data Structure and Algorithms
- Software Engineering
- Web Development
- Mobile Application

EDUCATION

Lebanese International University
Bachelor of Science in Computer Science

Saida, Lebanon
Oct. 2021 – Jan. 2025

PROJECTS

Safety Doors Ecommerce | *html, css, Javascript, php*

Mar. 2024 – May. 2024

- Designed and developed an ecommerce platform for safety doors using HTML, CSS, JavaScript, and PHP. HTML and CSS were utilized to create a responsive and user-friendly interface for customers.
- PHP was employed for server-side scripting to handle backend functionalities such as user authentication.
- Implemented secure payment gateways to facilitate safe transactions.

Buy Resistor App | *Flutter*

Dec. 2023 – Jan. 2024

- Utilized Flutter to create an intuitive user interface for browsing and purchasing resistors with ease.
- Integrated with an online database hosted on 000webhost to provide a comprehensive catalog of resistors, ensuring up-to-date product availability.
- Leveraged an external API to fetch detailed specifications and compatibility information for each resistor, catering to diverse user needs.

LANGUAGES

Arabic: Native
English: Excellent

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript, HTML/CSS, PHP, C, Dart
Developer Tools: Git, Github, SQL Server, VS Code, Visual Studio, IntelliJ
Frameworks and Libraries: Bootstrap, Laravel, Flutter
