WORK EXPERIENCE

Internship in Mobile Development | Monty Mobile – Hamra, Beirut

June 2023 – August 2023

- Acquired proficiency in Kotlin-based Android module development and API integration.
- Strengthened collaborative problem-solving and coding skills within a team environment.
- Enhanced understanding of maintaining app functionality and user experience.

Internship in Quality Assurance | Monty Mobile – Hamra, Beirut

August 2023 – October 2023

- Actively engaged in opening and managing bug reports, documenting defects with a keen eye for detail.
- Developed and executed test plans, test cases, and test scripts.
- Collaborated with cross-functional teams of developers and QA professionals, using Agile Methodology (Scrum) to ensure comprehensive test coverage.
- Attained knowledge in manual testing procedures, including functional & non-functional, positive & negative, regression, API testing and performance testing.
- Assisted a senior QA engineer in tasks related to real company projects, gaining hands-on experience and mentorship.

Data Analyst & Database Assistant | Pharmacy Al -Ola – Aramoun

Freelancer

- **Monitored data acquisition and transfers** within the pharmacy, ensuring secure, efficient, and accurate management of medication and patient information databases.
- **Created and maintained comprehensive documentation** related to pharmacy master data management, performing necessary process activities for data sets, including the assessment of data updates and completeness.
- **Prepared regular reports** on stock levels, expiration dates, and product turnover, identifying the most efficient and accurate reporting solutions.
- **Developed solutions for complex inventory management problems**, ensuring the availability and timely restocking of essential medications and supplies.
- **Ensured accurate documentation** of patients' medical histories, prescriptions, and treatment plans, continuously seeking process improvements to enhance the accuracy and efficiency of patient records management.
