Hussein Fakih

Beirut, Lebanon | +96176496911 | fakih.hussein995@gmail.com | LinkedIn | GitHub

OBJECTIVE

An ambitious Software Developer with a passion for learning and collaborating in multiple environments. Seeking to leverage my technical skills and experiences in a forward-thinking team.

SKILLS

Programming Languages: Java – Python – PHP – JavaScript – SQL.
Database Management Systems: MySQL – MongoDB.
Frameworks and Libraries: ASP.NET – Laravel v10 – React – Node.js
Tools and Cloud Services: GitHub – Figma.
Theory: Complexity Analysis – Data Structures and Algorithms – Design Patterns – OOP.
Languages: English (Professional) – Arabic (Native) – French (Intermediate).

PROJECTS

- **PlanMate [GitHub Repo]**
  PlanMate AI is a travel planning app that generates personalized travel plans based on user preferences (budget, interests, and time), using AI to optimize routes, predict costs.
  - AI-Powered Travel Recommendations: Recommends attractions, restaurants, and activities tailored to user preferences.
  - Route Optimization: Uses AI and Google Maps API to create efficient travel routes based on traffic and location data.
  - Smart Cost Estimator: Calculates trip costs with breakdowns and budget-friendly alternatives.

Stacks Used: React.js - Laravel - MySQL

- **AI Powered Code Compiler [GitHub Repo]**
  - Developed a collaborative code editor with support for multiple programming languages.
  - Implemented a workspace where users can create, store, and retrieve code files.
  - Integrated OpenAI for AI-powered code analysis and error fixing.
  - Designed role-based access control, allowing users to assign Editor or Viewer privileges.

Stacks Used: React.js - Laravel - MySQL

EDUCATION

Bachelor Degree in Business Computing

Saint Joseph University of Beirut   2015 – 2018

WORK EXPERIENCE

- **Operations Manager, Hala and Company LTD**   May 2020 – March 2024
  - Led regular discussions with auditors and accountants, ensuring accurate and timely financial reporting.
  - Resolved audit queries through clear communication and collaboration.
  - Developed strong relationships with key suppliers through consistent communication, and problem solving ensuring smooth and uninterrupted goods flow.
  - Developed and implemented a new sales process that increased revenue and reduced warehouse inventory, freeing up capital and optimising storage space.
  - Managed and evaluated staff performance.
  - Implemented inventory and expenses control.
