Objective

Armed with a robust skill set and a hunger for hands-on experience, I am determined to make a tangible impact and rapidly grow within a dynamic work environment.

Technical Skills

- Programming Languages: C, java, JavaScript, PHP, C#.
- Front-end: HTML, CSS, React, JQuery, Bootstrap.
- Back-end: PHP, Asp.net Core
- Database: SQL, MYSQL.

Projects

- Designed and developed a suggestion application using C#, Blazor, CSS, and Bootstrap. Implemented features allowing users to post suggestions and upvote them.
 - Applied advanced concepts including memory caching for performance optimization.
 - Utilized async & await for responsive and efficient data handling.
 - Demonstrated skills in responsive web design to ensure compatibility across devices.
- Developed a comprehensive tournament tracker desktop application utilizing C# and SQL, facilitating seamless management of competitions, teams, matches, and scores.
- Demonstrated proficiency in front-end development by creating three UI projects employing React, CSS, Tailwind, HTML, and JavaScript, including a booking.com clone, a restaurant page, and a dynamic blog website.
- Built a dynamic content management system using PHP, HTML, CSS, and SQL, empowering administrators with form-based CRUD operations and efficient page management capabilities.
- Crafted a responsive personal portfolio showcasing adaptability across various screen sizes, employing HTML, CSS, and JavaScript to ensure optimal user experience and visual appeal.

Education

- Lebanese University, Bachelor of Sciences, 2021 to 2024 (anticipated)
In Computer Science. Grade: 79/100.
- 42 Beirut Student: Currently enrolled.
Attending 42 Beirut after the rigorous selection process. an institution renowned for fostering a diverse range of technical skills essential for success in the dynamic field of technology.
- Al Aabbassiyeh High School, Scientific Baccalaureate, 2021
In General Sciences. Grade: 90/100.
Obtaining the 25th rank in the official exams in Lebanon.

Affiliations

- **Amazon Web Services Certified Cloud Practitioner:** This foundational certification validates my understanding of cloud concepts, AWS services, security, pricing, and architecture.
 - Valid from July 2024 to July 2027
- **42-Beirut piscine participant:** An immersive one-month experience that allowed me to delve into C programming language, Linux, and GIT. Through hands-on projects, I gained proficiency in these skills.
- **Foundational C# with Microsoft:** Utilizing the Microsoft Learn Platform, I learnt C# through interactive tutorials and comprehensive documentation.

- **JIL-Unicef Alumni:** Completed an entrepreneurship program spanning one year, acquiring essential business and communication skills.
 - Developed a winning business idea and secured funding prize in competition.
