Achraf Charif

Web Developer / Data Scientist

Address: Tripoli, Lebanon   **Phone:** 00961 76 137 692   **Email:** achrafcharif124308@gmail.com   **LinkedIn:** linkedin.com/in/achraf-charif

---

A highly skilled Web Developer and Data Analyst, I excel at creating powerful, data-driven web solutions that enhance business performance. By combining expertise in web development with data analysis, I design and implement dynamic applications that not only meet user needs but also provide actionable insights to optimize decision-making. My ability to integrate data analytics into the development process enables me to build scalable, efficient web platforms that drive both user engagement and operational efficiency. As a problem-solver with a strategic mindset, I deliver innovative solutions that bridge technology and data to propel business success.

Professional Experience

2025-02 – Present **Geek IT MEA — Software Developer**

- Developed and deployed a custom Power Apps Canvas App for WFK Law Firm, streamlining and automating day-to-day operations by designing features to manage client data, track case progress, store documents, and improve internal communications. Automated routine tasks like case status updates and document approvals, reducing manual processes and minimizing human errors, resulting in improved workflow efficiency.

- Developed and maintained web applications using C# and ASP.NET Core, ensuring robust, scalable, and high-performance solutions. Implemented RESTful APIs, integrated databases, and optimized server-side functionality to meet business requirements. Utilized Entity Framework Core for database management and performed unit testing to ensure application reliability and performance.

2024-02 – 2024-03 **Beirut Digital District — Pisciner**

- Completed the intensive piscine phase at Beirut 42. Developed proficiency in C, algorithms, data structures, shell scripting, and Unix systems. Engaged in collaborative learning, honing teamwork and problem-solving skills through project-based learning.

2023-09 – 2024-02 ***Baher Ouloum School, Bzal — School Management System System***

- Internship focused on developing a Management System utilizing Blazor, SQL Server, and C#.

2023-06 ***Training With MOLTAQA (STEP Program)***

- Training of Full Stack .Net Developer Module Under SPARK's Skills Training Education Program.

2023-04 ***Website for buy a Phone***

- My Web Development Project, developed using html5, CSS, JavaScript: https://achrafcharif124308.github.io/Project01/projethtml.html

Education

2024- Present **Master's degree in Computer Science, specializing in Software Engineering**
Lebanese University, Tripoli

2020- 2023 **Bachelor's degree in Computer Science**
Lebanese University, Tripoli

2017- 2020 **Lebanese Baccalaureate in Life Sciences**
Berkayel Official Secondary School, Berkayel

Additional Courses

2024-06- 2024-11 **Data Analyst — Simplilearn platform Powered by Forward MENA**
- I have completed a comprehensive Data Analyst training program covering Business Analytics with Excel, SQL, Python, R, Tableau, and Power BI. The program was project-based, allowing me to apply theoretical knowledge to real-world scenarios.

2024-06- 2024-11 **Google Data Analyst Certificate — Coursera Platform**
- I have completed the Google Data Analyst Professional Certificate, where I developed skills in data cleaning, SQL, data visualization with Tableau and Data Studio, statistical analysis using R, and real-world data projects.

Skills

- HTML5/CSS
- JavaScript
- PHP
- C & C# language

- Python language
- R language
- Mobile App Development
- JAVA

- Blazor
- SQL
- Parallel Programming
- Networking

- UML
- Linux
- Prolog
- Microsoft Office

Languagues

- Arabic, Native
- English, Proficient
- French, Proficient
